**AT HOME**—SATURDAY, OCTOBER FOURTEENTH.  
BARTLETT BROS., 233 S. SPRING STREET.

## [SOUTH AFRICA.]

### BLOW STRUCK BY THE BOERS.

Gen. White Said to Have Met the Boers.

News of a British Advance Reaches War Office.

Strong Column Reconnoiters in Acton Homes' Vicinity.

Several Attacks on Mafeking End in Reported Repulses.

Heavy Storms Begin and Forage Is Scarce—Fifteen Britishers Killed in Attack Upon the Armored Train.

[ASSOCIATED PRESS NIGHT REPORT.]

LONDON, Oct. 14.—[By Atlantic Cable.] An Edinburgh paper, the Scotsman, this morning asserts that a battle has taken place between Gen. Sir George Stewart White, commanding the forces in Natal, and the Boers who entered Natal by way of Van Reenan's Pass. Gen. White, the Scotsman says, is very sanguine of the success of the British movement. The foregoing report is considered to be correct, as late last night the War Office had news of a British advance from Ladysmith and was hourly expecting further intelligence.

A dispatch to the Daily Telegraph from its correspondent at Ladysmith, dated at noon, Friday, says that a strong mobile column under Gen. Sir George Stewart White, accompanied by Gen. Sir Archibald Hunter, proceeded before daybreak this morning toward Acton Homes for the purpose of reconnoitering. Gen. White's object was to observe what was going on and also to test the mobility and efficiency of his forces. All the men are well and the weather is now fine.

According to a dispatch from Ladysmith to the Standard and Daily Telegraph, dated Thursday, heavy storms have begun, and forage is scarce on the veldt. Therefore nothing is expected to happen for a few days, unless the Boers, who were reported to be advancing, should threaten the British line of defense drawn from Glencoe Junction to Ladysmith. In this case, according to the dispatches, no apprehension is felt as to the result. Gen. White has twelve guns and the Boers eleven.

The Daily Mail's Cape Town correspondent telegraphing Thursday evening says: "I learn on good authority that the Boers are attacking Mafeking. They are reported to have already suffered several repulses. It is generally admitted that Vryburg cannot stand a strong Boer attack."

According to the Daily Mail's Cape Town correspondent, Mr. Schreiner, Premier of Cape Colony, will unreservedly support the imperial government. His previous re-

serve was dictated by a desire not to drive the extreme Dutch residents to excesses. According to the same authority, the railway department had early intimation of the intention of the Boers to destroy railway bridges over fourteen streams, and sent adequate forces to protect these points. The result was that the Boers postponed their attempts.

Evart Grobler, member of the Volksraad for Philippolis, has been elected commandant-general of the Free State forces. He is only 35 years of age, is well educated and was a Free State delegate to the Chicago Exposition.

The correspondent of the Daily Mail further says that the Free State forces have completed all preparations for the destruction of the Bothule bridge when that action becomes necessary.

The Prince of Wales has promised to see Gen. Redvers Buller and his staff off from the Waterloo station today. A big demonstration is expected.

It is an interesting fact that Lord Edward Cecil, son of the Marquis of Salisbury, is with Col. Baden-Powell at Mafeking.

THERE WAS A FIGHT. [ASSOCIATED PRESS NIGHT REPORT.] KIMBERLEY, Oct. 14.—The report that fighting has taken place at Kraaipan has been officially confirmed.

SPITZKOP OCCUPIED. [ASSOCIATED PRESS NIGHT REPORT.] GLENCOE CAMP, Oct. 13, 10 a.m.—The Boers have occupied Spitzkop, near Newcastles.

RHODES LAY LOW. [ASSOCIATED PRESS NIGHT REPORT.] LONDON, Oct. 14.—According to the Kimberley correspondent of the Daily Telegraph Cecil Rhodes had a narrow escape from capture while on his way here. His train was delayed as he passed the Modder River, three hours after the expiration of the ultimatum, when the Boers were only five miles distant and ready to attack. Rhodes was actually on the platform. Rhodes was not recognized. He believes the strength of the enemy is greatly exaggerated and that if they will not attack the entrenchments. The chief cause of anxiety is ignorance of their artillery strength.

"I understand," continues the correspondent, "that a flying column is being organized for the protection of the railroad between the Orange River and Kimberley. This flying column is shown that the Orange Free State has half its available force, viz., 10,000 men, scattered along the extensive western border between the Vaal and Orange rivers. The strategy displayed in their present disposition is crude."

ATTEMPTING A TURN. [ASSOCIATED PRESS NIGHT REPORT.] CAPE TOWN, Oct. 12, Evening.—[Delayed in transmission.] It is a very telegram received here is correct. It is possible that the Boers are attempting a turning movement on Mafeking. Otherwise the presence of the Boers would be a serious matter. It is possible, however, that they have merely cut the telegraph wires and taken possession of the town.

BOERS ALREADY COMPLAIN. [ASSOCIATED PRESS NIGHT REPORT.] CAPE TOWN, Oct. 12, Evening.—[Delayed in transmission.] A dispatch from Mafeking, dated 3:22 o'clock this afternoon, says it is officially stated that the enemy will probably approach this afternoon. The Boers will be sent to watch on all sides, and guns will be posted on the high grounds southeast of the town. It is likely the enemy will attempt to take the town before attempting to take it by assault.

Already the Boers complain. They want to attack the town, and many are deserting. Meat is scarce, and dysentery is prevalent. If the garrison does nothing, it is probable that the Boers will capture the town in the mean time opportunities for hitting them hard.

Information has been received from another source that the Boers have actually crossed the frontier some miles south of the town. This information is believed to be correct, though it lacks confirmation.

KRAAIPAN ATTACK. [ASSOCIATED PRESS DAY REPORT.] LONDON, Oct. 13.—The War Office has received the following dispatch from the general commanding the Cape forces:

"An armored train from Mafeking, carrying two 7-pounder guns sent from here to Mafeking, was attacked last night at Kraaipan. Apparently a rail station between the town and Mafeking it was with artillery for half an hour and captured it."

Telegraphic communication with Mafeking has been cut. The women and children have been sent to Cape Town. The guns belonged to the colony. They are light and old caliber.

A later dispatch to the Evening News says the armored train was attempting to run through the Boers.

SURROUNDING BADEN-POWELL.

The British Understand the Gravity of Boer Movements.

[ASSOCIATED PRESS DAY REPORT.] LONDON, Oct. 13.—[By Atlantic Cable.] The War Office believes that in the destruction of the armored train, the worst has happened. Apart from the destruction of the train, the most notable change in the position of affairs is the presence of Boers at Mariborg, forty miles south of Mafeking, which seems to indicate that the Boers are preparing to get Col. Baden-Powell between two fires.

The gravity of the Boer advance can be better estimated when it is realized that they will thereby cut railway and telegraphic communication to the north, isolating several British positions which must be speedily relieved. Despite the optimistic reports of the ability of Mafeking to repel an attack, the greatest anxiety prevails here regarding the situation there, as it is known that the redoubtable commandant, Cronje, who captured the Jamestown raiders, has the strongest force yet put into the field, with the exception of Commandant-General Joubert's force. Cronje's troops now number between 900 and 10,000 men.

The position in Natal has not materially altered. The reported inroad of 3000 Boers by way of Tintwa Pass is probably identical with the inroad of the force reported yesterday as having crossed Van Reenan's Pass. The Tintwa continued, according to the

## [ON THE FIRING LINE.]

### MET A FORCE AT MUTINLUPA.

Maj. Cheatham Reports an Engagement.

Has Five Killed and Wounded While Routing Rebels.

Police Lieutenant Arrested for Concocting a Plot.

Seizure of Arms at Headquarters of Dominican Friars—Rumor That American Prisoners Were Gagged and Shot.

[ASSOCIATED PRESS NIGHT REPORT.] MANILA, Oct. 13, 11:15 p.m.—[By Manila Cable.] Maj. Cheatham, with a scouting party, while proceeding along the west shore of the lake yesterday, encountered a force of rebels, strongly entrenched at Mutinlupa. Maj. Cheatham reports that he drove the rebels from their position, and that in the engagement three Americans were killed and two wounded. Rumors are in circulation in Manila that Maj. Cheatham discovered three American prisoners, who had been bound, gagged and shot by the insurgents. These rumors have not been confirmed, however.

One Sandago, a lieutenant of the native police, has been arrested and lodged in jail, his subordinate having reported to the authorities that he was endeavoring to enlist them in a plot to turn the police against the Americans in the event of an uprising. Reports having reached the provost marshal that arms were concealed at the headquarters of the Dominican friars, a large building adjoining the place, a detachment of soldiers made a search of the building. They found a small stock of rifles, revolvers and ammunition, which was confiscated, despite the protests of the friars. The arms were not intended for unlawful use.

Gen. Schwan, with the infantry, has reached Bacoor. The troops are greatly exhausted, having had one of the hardest marches of the campaign. From Malabon to Perez Dasmariñas they marched through roadless rice fields. The Fourth Infantry from Imus joined Gen. Schwan at Perez Dasmariñas. The Filipinos had deserted the town upon learning of the approach of the Americans, leaving only the women and children behind.

Two strong shocks of earthquakes, lasting several seconds, were felt in Manila at 10 o'clock this evening.

AFTER AGUINALDO.

Gen. MacArthur, Lawton and Gen. Schwan, with the troops, are in the city. A special to the Herald from Washington says that while Gen. Schwan is engaged in scattering the enemy in Cavite province, preparations for an important movement to the north of Manila.

Gen. MacArthur and Lawton will proceed to the north in the hope of trapping Aguinaldo and his forces between the three columns. Gen. Schwan's movement to the southward of Manila is merely in the nature of a demonstration, and for the purpose of scattering insurgents who have entrenched themselves in Cavite province, the home of Aguinaldo and the nest of the rebellion.

STRANDED OHIO SOLDIERS. [ASSOCIATED PRESS NIGHT REPORT.] CLEVELAND (O.), Oct. 13.—Word has been received that 200 Cleveland soldiers in the Fourteenth Regiment, just returned from the Philippines, are stranded in San Francisco, their pay, which was given them in Manila, having been spent. An effort is being made to raise the \$1200 necessary to bring them home. Senator Hanna and Gov. Bushnell contributed \$100 each.

KEEP HANDS OFF.

Senator Davis Thinks Congress Will Let the President Have His Way.

[BY WIRE TO THE TIMES.] WASHINGTON, Oct. 14.—[Exclusive Dispatch.] Senator Davis of Minnesota, chairman of the Committee on Foreign Relations, at its coming session, will not attempt to establish a civil government for the Philippines, but will give jurisdiction over the islands to the President under the control of President McKinley, who will thus be enabled to continue military control for an indefinite period.

Senator Davis has been in Washington several weeks, preparing for his work in Congress. It is not certain yet what committees will be given jurisdiction over affairs of the newly acquired islands, but the Minnesota Senator has been giving special attention to the study of problems involved in their possession by the United States. He has consulted with many Senators and Congressmen, and doubtless has discussed these questions with the President. He occupies so influential a position in the Senate that his opinion will carry great weight in determining government policy. While the ultimate fate of the Philippines will be determined by Congress, so long as it keeps its hands off President McKinley will continue to direct their government by virtue of his authority as Commander-in-Chief of the army and navy. President McKinley is already establishing a civil government in the municipalities as rapidly as possible, and inviting the natives to take as large a part as they are fitted to carry out. This work is progressing as well and as satisfactorily as though there had been action by Congress concerning it. There is little doubt that the President will be permitted to exercise supreme control in the Philippines so long as hostilities continue, and Senator Davis's opinion as to subsequent action is of value because he has been testing the temper of the nation's legislators with whom he has come in contact. It has been suggested that commissioners be appointed to rule the Philippines somewhat after the system in use in the District of Columbia, but while that may be tried, it will probably not be by the coming Congress.

Senator Davis thinks President McKinley will also be permitted to continue the military government of Cuba indefinitely, for he believes it will be several years before the Cubans can be trusted to manage their own affairs, and maintain a stable government. He is confident Congress will interpose the interests of the United States early in the session, and provide it with a civil government.

THE CITY—Pages 7, 8, 9, 10, 11, 14.

Millions represented in proposed Pacific Coast association of wholesalers. Annual meeting of Woman's Foreign Missionary Society ended. Missing milkman's disappearance a puzzle. False-alarm fiend arrested. Proposed oil refinery opposed. Over an inch of rain. Irrigation meeting this afternoon. Crash of plate glass injures two men. No further delay in sale of water bonds. Supreme Court's session here closed. Corporation with a soul suing the county. A dry goods suit on trial. Supervisors enlightened by District Attorney's office agent licenses. Young Edith Shaffer says she never wants to see her father again. Jackson still searching for his wife and son. Southern California—Page 13.

Doctors and citizens booming the hospital enterprise at Pasadena. San Diego entertains the mining engineers. "White Angel" tried of sweeping the streets being tried at Pomona. Street lamps to be turned on again at San Bernardino. Rain prevents entertainment of mining engineers at Riverside. Santa Barbara "gap" right-of-way affair all cleared up at last. Southwest gale makes a lively half hour at the Southern Pacific wharf, Port Los Angeles. Pasadena "blind pig" skipped. By Cable—Pages 1, 2, 3, 4.

War on in South Africa—Gen. White's forces reported in battle—Armored train destroyed and fifteen British soldiers killed—Manifesto to Afrikaners—Cabinet council at London—Premier Schreiner's speech—Boer patrol fires on a mail train. Maj. Cheatham engages the Philippine rebels at Mutinlupa. Party of Dominicans released from Baracoa prison. Sloan, Reiff and Martin each win a race at Newmarket. Col. Schneider wounded as a result of Capt. Culbert's evidence at the Dreyfus court-martial. King Oscar disavows equal rights for Norway and Sweden.

## [THE PRESIDENT'S TOUR.]

### DID NOT SHIRK THEIR DUTY.

North Dakota Soldiers Warmly Praised.

They Forebore All Things Rather Than Disobey Orders.

Insolence of Rebellious Natives Borne With Patience.

significant Speech by the Chief of All the Forces.

Had No Thought That the Emancipated Would Turn Upon Emancipator—Sixty Thousand Men Will Support the Flag.

[ASSOCIATED PRESS NIGHT REPORT.] FARGO (N. D.), Oct. 13.—Over ten thousand people greeted President McKinley and his party when they arrived here tonight at 7:30 o'clock. Entering carriages, the party was driven to a reviewing stand through a line of the First North Dakota Volunteers, who recently returned from the Philippines. The President was received with a wild demonstration of enthusiasm.

In his address the President referred repeatedly to the situation in the Philippines. When he declared that the United States government would send 60,000 men to the Philippines to uphold the American flag where the volunteers had placed it, the crowd approved the declaration with wild applause. The President said in part: "I have come here especially that I might look into the faces of the North Dakota volunteers who saw service in the battle line in Luzon. You did your duty and you filled my heart with joy when, with other volunteers and regulars, you sent me word that you would not quit the battle line in Luzon until I could create a new army and send it there."

"You refused to beat a retreat or shirk your colors in the presence of the enemy. No matter who wanted you to go home, you said: 'We will stay and keep the flag stainless in the presence of the enemy.'"

"No soldiers of any country ever had any more delicate or trying duty. This army of which this fragment from your State formed a part, remained in Luzon waiting, first for the treaty of peace, which was being prepared in Paris, then for the ratification by the Senate of the United States, then until the exchange of ratification between the United States and Spain, waiting through all that long period, accepting the insolence of the insurgents with dignity, because they were ordered by the Executive of the nation not to strike a blow pending the treaty of peace, except in defense. They accepted, therefore, the insolence of the insurgents with a patience sublime."

"We never saw a more noble little body of insurgents whom we have just emancipated from Spain would turn upon the flag that had delivered them from Spain. Then it was that the insurgent leader began to attack our men, and then our boys let loose. But I always thought the boys were quite ready for it. [Applause.]"

"I want to give them the credit of saying here, in the presence of their neighbors and friends, their fathers and mothers, that these boys forebore all things rather than disobey the order of the government they were serving. The leader of the insurgent forces says to the American government: 'You can have peace if you will give us independence.' Peace for independence, he says. He had another price than that for peace once before, but the United States pays no gold for peace. We never gave a bribe for peace in our history, and we never will. [Applause.]"

"Our flag is there where you left it, you boys of the North Dakota volunteers. You left it there in the hands of those who took your places, without blot or without stain. And wherever that standard is raised, whether in the Western or the Eastern Hemisphere, it stands for liberty, civilization and humanity. Our flag stands for liberty wherever it blows. And we propose to put sixty thousand men behind that flag in Luzon to maintain the authority of the United States and for the glory of the republic, in the interest of civilization and humanity. We accept the responsibility of duty at whatever cost."

Atty.-Gen. Griggs, Secretary Long, Secretary Gage, Secretary Hitchcock and Secretary Wilson and Senators Hanborough and McCumber spoke briefly. The exercises were limited to the speaking and the review of the First North Dakota Volunteers, owing to the lateness of the train.

At 9:30 o'clock the President's train was transferred from the Northern Pacific to the line of the Chicago, Milwaukee and St. Paul Railway, and left for Aberdeen, S. D.

EARLIER IN THE DAY.

West Superior Children Welcome the Head of the Nation.

[ASSOCIATED PRESS DAY REPORT.] WEST SUPERIOR (WIS.), Oct. 13.—President McKinley and party arrived here this morning, and were greeted by 8000 people, besides 7000 school children at the City Hall. A committee of children presented the President and party with a neatly-printed, souvenir purchased by a penny contribution from the school children. Caroline Kennedy, a six-year-old girl, made the presentation speech. The President

(CONTINUED ON SECOND PAGE.)

## BLESSED SHOWERS.

### HARDLY ANY SECTION OF THE STATE ESCAPES.

Great Benefit Reported in Many Sections—Water Supplies Replenished and Vegetation is Started.

Late Hay in Some Sections Will Suffer Much Damage—Loss in Fruit and Vineyard Sections Not Large.

Killing of Frank McAllister Justified—Victims Negro Jabs a Man's Eye Out—Snowstorm at Truckee.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Oct. 13.—More or less rain has fallen in nearly all sections of California today, the fall in this city for the past twenty-four hours amounting to 1.44 inches, and in Los Angeles to 1.08 inches. As Fresno a rainstorm has been accompanied by a precipitation of .54 of an inch. The temperature is falling through the State, and frosts are anticipated. At Yuba City, the rainfall for the storm was 1.17 inches. It has done some damage to late crops, but farmers can now begin sowing grain.

An inch of rain has fallen at Redding, doing much good in the vicinity. There has been some snow in the surrounding mountains. At Chico 1.03 inches fell and proved very beneficial to that section. Colusa reports a fall of 1.15 inches, with a promise of more. The storm has done good here. The fall at Calistoga was 1.34 inches. There has been no damage to grapes or other fruits, and stockmen are pleased at the bright outlook for grass on the ranges. Mount St. Helena is covered with snow, which is from six to eight inches deep on the peaks.

Over an inch of rain fell at Napa, injuring ungrated grapes and drying fruit and destroying dry pasturage. At Milton plowing will at once begin, over an inch and a half of rain having fallen. In Stanislaus county the rainfall has been ample to insure the commencement of plowing, some gauges registering as much as an inch and a quarter.

Showers fell at Santa Cruz all day, the precipitation being 2.04, and for the season 2.80 inches. The weather there was cold. In Monterey county the fall has averaged one and a quarter inches for the storm. The damage to cereals has been slight, and the late crop of sugar beets has been much improved. There was a heavy hail storm at San Miguel, but no harm was done, and at Santa Maria one and a quarter inches of water may injure beans and unthrashed grain.

At Niles one inch of rain has fallen during the season. Hay and grapes, both table and stock, are covered considerably. At Cayucos the fall for the season now amounts to 2.35 inches. Much damage has been done to unthrashed grain.

FORECASTER'S REPORT.

[ASSOCIATED PRESS DAY REPORT.]  
SAN FRANCISCO, Oct. 13.—When seen this morning in regard to the extent of the rainstorm of the past forty-eight hours, Forecast Official A. G. McAle said:  
"Hardly a section of California, from San Diego north, has escaped the rain. In some places, particularly in the vicinity of San Francisco, the fall has exceeded 1 inch.  
"Owing to the warnings sent out to the various fruit and vineyard sections, the loss occasioned by the rain has been comparatively light to individuals. In some remote sections where the weather bulletins are not posted, the losses may be quite heavy. Farmers who have let their hay remain in the fields until this late day will doubtless suffer much loss, but the good derived from the precipitation will, I think, more than even up matters."  
"The Santa Clara, San Joaquin and Sacramento valleys lost but little. Fresno was warned in ample time for raisin-growers to stack their trays. Dairymen and cattle-rangers will be greatly benefited, as the rain will give renewed life to the grass and feed."  
"Taking it all in all, I think that the rain has been of quite benefit to the State. Water supplies have been replenished, feed will become richer and vegetation will generally be benefited."  
"I look for the storm to blow over tonight or early tomorrow, and for a sharp cold frost on Sunday morning in the northern section of the State. Snow has fallen in Nevada and Utah and in the California Sierras."

FRESNO JOYFUL.

[ASSOCIATED PRESS DAY REPORT.]  
FRESNO, Oct. 13.—The rainfall for the storm was .14, making .44 for the season, with forecast for more this afternoon and tonight. Although nearly a month ago the city has had the precipitation, if continued in scattered showers, would be a boon to the county and will do such trifling injury to second-crop raisins as scarcely to call for comment.

The prospect of an early resumption of the city's electric light and power supply alone offsets the damage that may be possibly done to few who neglected, after warning, to stack raisin trays. Pasturage will be benefited and the breaking up of the year's drought is hailed with joy by stockmen.

Considerable snow has fallen in the Sierras, and a rise in the temperature to melt it will help fill the upper storage reservoir of the San Joaquin Electric Company in the mountains. Reports from the north fork of the San Joaquin at Peckham's mills are that there is one foot of snow.

TYPICAL CALIFORNIAN.

[ASSOCIATED PRESS DAY REPORT.]  
OAKLAND, Oct. 13.—The second rainstorm of the season broke over this city last night about 7:30 o'clock and continued with but slight intermissions up to noon today. At that time, the sky was overcast and there was every indication that the storm had not come to a close. This was greatly regretted because the people of this city have made arrangements to entertain the Kansas and Montana regiments of volunteers tomorrow and a continuance of the rain would cause annoyance to the soldiers and arrange the play would be a serious matter of arrangements.

The precipitation up to 7 o'clock this morning was .66 of an inch, which, with the fall of yesterday, amounting to .06 of an inch, makes the total .72 of an inch for the season. Last year, the rain fell earlier than it has done this year and exceeded the fall of this year by 1.22 inches, the precipitation for last season being 1.94 inches.

So far as can be ascertained in this county, the rain has not wrought much

damage. Farmers and viticulturalists who might have been seriously affected by the rain had received an intimation of its approach and were able to take steps to protect themselves to a greater or less extent than they otherwise would have been.

The storm was more nearly like a California storm than any which has visited this section for several years. It came from the southeast and though it ruffled the bay and estuary did no damage to shipping.

DOES GOOD TO SAN JOSE.

[ASSOCIATED PRESS DAY REPORT.]  
SAN JOSE, Oct. 13.—All day yesterday the Weather Bureau had out the shower flag. Now people are wanting to know what will happen if the weather man puts out the rainstorm flag. Judging by what came with only a shower flag up, it is safe to predict a deluge if the rainstorm flag goes up. There was but a little rain here yesterday. Along about 9 o'clock last night there was a little drizzle which continued steadily, but no one anticipated a winter storm. Shortly after 11 o'clock the drizzle increased to a heavy rain and by 12 o'clock water was falling in sheets. Never did it rain so hard and for hours it fell.

At 8 o'clock this morning standard gauges about town gave 1.32 inches for the twenty-four hours ending yesterday. Dense clouds hang over the valley and the rain still comes in a spasmodic way, but only in mist. The rain caused the usual double to wires, gutters and sewers. Everything was flooded and reports from the mountains state that water is running freely there. It was a tremendous rain in all the sections surrounding San Jose.

Some harm has been done, for some hay was still out. There were many grapes on the vine and the cloudy, damp weather means the ruin of these. Dry feed is ruined, but there was no great amount of this. Grass will start now. All in all the rain has done good for it not only clears the smoke and dust away, but puts out the last sparks of fire remaining in the mountain forests.

SACRAMENTO NEEDED IT.  
[ASSOCIATED PRESS DAY REPORT.]  
SACRAMENTO, Oct. 13.—Last night the Sacramento Valley had a thorough drenching. Rain fell almost steadily during the entire night and up to nearly 10 o'clock this morning. It was one of the heaviest October storms the valley has had in a number of years. Rain was badly needed, particularly from a sanitary point of view, as there is considerable sickness throughout the valley. Some grain which was not harvested will be damaged. There will also be slight damage to grapes.

There was a heavy fall of snow in the mountains last night, along the Central Pacific road, and snow has been falling all day at Summit. Snow is already over three feet in depth. Railroad traffic has not been interfered with.

The Weather Bureau reports show the rainfall last night and up to 7 o'clock this morning was 1.15 inches, and for this month, 1.34 inches, while the season's total precipitation is 1.35 inches, as against .70 of an inch to an equal date last year.

NO DAMAGE AT STOCKTON.

[ASSOCIATED PRESS DAY REPORT.]  
STOCKTON, Oct. 13.—Rain has been falling here intermittently ever since last night, and the indications are now that more is to come. Thus far no damage has been reported, though at first it was believed that table grapes would suffer. Should the weather continue cool, however, the damage to table grapes, which would be the only kind affected, will amount to very little. Warm weather would crack the skins and make them unsalable. Other varieties of grapes, however, are gathered and have been packed. The rain has been a great help to the raisin growers, as the water has been sufficient to keep the vines from drying out.

As yet the rain has been sufficient to damage hay. In most places throughout the county the hay is either laid up or covered over or packed in water-shedded. The total fall here for the storm since yesterday morning is .81 of an inch. Rain has been general in the county. Late advice as to the effect that beans will be injured to some extent.

WELCOMED AT PRESIDENT.

[ASSOCIATED PRESS NIGHT REPORT.]  
PRESCOTT, (Ariz.), Oct. 13.—The long spell of dry weather here has been broken by two inches of rain during the past forty-eight hours. The storm is still on, with no prospect of abatement. The falling temperature this evening indicates showers during the night. A high wind has prevailed during the storm. The downpour is welcomed, as water has been growing short. Several general mining camps have closed down on account of the scarcity of water.

CAYUCOS GRAIN SUFFERS.

[ASSOCIATED PRESS NIGHT REPORT.]  
CAYUCOS, Oct. 13.—Rain has fallen in this vicinity for two days, the precipitation amounting to 2.25 inches. Unthrashed grain has suffered severely.

DIXON'S NEW GRASS.

[ASSOCIATED PRESS NIGHT REPORT.]  
DIXON, Oct. 13.—Nearly an inch of rain has fallen in this vicinity since yesterday morning, and the indications are good for more. No damage has been reported, and the fall is considered ample to start the new grass. Farmers will commence plowing and seeding in a day or so. The warning sent out by the Weather Bureau gave growers plenty of time to prepare for the rain.

VANCOUVER MINING NOTES.

Poor Man Sold for a Large Sum.  
Coal Miner Killed.

[ASSOCIATED PRESS NIGHT REPORT.]  
VANCOUVER, Oct. 13.—The Poor Man mine near Nelson has been sold to the Granita Mines Company, Limited, a big English company, for \$215,000.

At an enthusiastic meeting of the Liberal Association here today, a resolution was unanimously passed approving the action of the Dominion government in deciding to send a contingent of troops to support the empire in South Africa.

By the falling of a rock, Nicholas Milburn, a coal miner, was killed at Protective Island shaft at Nanaimo, this morning.

JIM REA'S BANKING.

Proposes a Plan to Pay Union Savings Depositors.

[ASSOCIATED PRESS NIGHT REPORT.]  
SAN JOSE, Oct. 13.—A joint meeting of the shareholders and depositors of the defunct Union Savings Bank was held today. It was a lively meeting, and rather sensational throughout. President J. W. Rea submitted his semi-annual report. He advocated that 100 cents on the dollar be paid the depositors. He said that the resources of the bank are short \$27,000 to do this, but that if each shareholder would pay \$25, all would be paid in full. He added, however, that he estimated that if the shareholders who are not execution proof would pay \$50 on the share, all would be paid. If each shareholder would pay the balance of the unpaid amount of the stock held, there would be a handsome surplus to pay all debts and put the bank on its feet to continue business. The capital stock is \$1,000,000, and \$200,000 is paid in, leaving \$800,000 on each share of \$100.

Senator C. M. Shortridge, who is a large shareholder, made a rattling speech in which he advocated that each shareholder pay all necessary to pay

each depositor 100 cents on the dollar, as opposed any compromise with the depositors.  
It is now said that the directors will meet this afternoon and call off the suits to collect the 10 per cent. assessment, and levy a sum large enough to pay the debts.

WIND'S VAGARIES.

Fresno Visited by Regular Eastern Tornado—Rain and Hail.

[ASSOCIATED PRESS NIGHT REPORT.]  
FRESNO, Oct. 13.—The people of Fresno today saw more vagaries of the weather than they had ever been treated to before, witnessing a regular tornado or eastern cyclone. It was a beautiful spectacular sight, but at one time it was too alarming to be regarded entirely as a pleasing spectacle. Many people who had never seen anything like it before did not know what the peculiar phenomenon was. Weather Observer Bolton took notes of a regular winter storm. Shortly after 11 o'clock the drizzle increased to a heavy rain and by 12 o'clock water was falling in sheets. Never did it rain so hard and for hours it fell.

At 8 o'clock this morning standard gauges about town gave 1.32 inches for the twenty-four hours ending yesterday. Dense clouds hang over the valley and the rain still comes in a spasmodic way, but only in mist. The rain caused the usual double to wires, gutters and sewers. Everything was flooded and reports from the mountains state that water is running freely there. It was a tremendous rain in all the sections surrounding San Jose.

Some harm has been done, for some hay was still out. There were many grapes on the vine and the cloudy, damp weather means the ruin of these. Dry feed is ruined, but there was no great amount of this. Grass will start now. All in all the rain has done good for it not only clears the smoke and dust away, but puts out the last sparks of fire remaining in the mountain forests.

**Hoffman's Millinery, 215 S. Broadway.**

## Snow in Truckee.

**Biggest Storm in Over Fifty Years.**  
[ASSOCIATED PRESS DAY REPORT.]  
TRUCKEE, Oct. 13.—For the past three days snow has fallen almost continually. No such storm has occurred in October since 1846, when the Donner party were snowbound at Donner Lake. One of Truckee's principal interests is the pasturing of sheep and cattle during summer months. All the stock and herds are still in the mountains and the greatest consternation prevails lest all perish from hunger and exposure.  
Most of the snow has melted as it fell but there is one foot of snow at Truckee and from two to four feet in the surrounding mountains. The storm was a complete surprise and the cattle are scattered all over the mountains. Some of the dairymen are hauling hay to their stock but the supply is limited and thousands of cattle and sheep must perish soon if the storm continues.

**DECLARATION BY MILLS.**  
Experts Hickox and Gumpel Declare One of Them Forged.  
[ASSOCIATED PRESS NIGHT REPORT.]  
REDWOOD CITY, Oct. 13.—The taking of testimony in the Mills estate contest closed today, and arguments were begun. George C. Hickox, treasurer of the California and North Pacific Coast Railroad, and Max Gumpel of San Francisco, both experts, examined the handwriting in the two statements alleged to have been written by Mills, in which he declared that he had no children. Both of the opinion that one of the declarations was a forgery. Of the other they were not so positive. Gumpel said that the signature of Mills on a number of bank checks had been tampered with to make it resemble that of the disputed declaration. Judge Fitzpatrick began the argument for the plaintiffs this afternoon, and spoke until the hour of adjournment. The case will go to the jury Monday.

**PACIFIC IMPROVEMENT STOCK.**  
Crocker Will not Sell to Huntington and the Speyers.  
[ASSOCIATED PRESS NIGHT REPORT.]  
SAN FRANCISCO, Oct. 13.—The Exchange will say tomorrow:  
"If any deal has been on of late, as mentioned in the dispatches from New York, for the Crockers to sell their holdings in the Pacific Improvement, in addition to their Southern Pacific stock, will say definitely off, and George Crocker is to retain the presidency of the company."  
"As near as can be ascertained, C. P. Huntington, the Speyers and several wealthy clients of the Speyers offered the Crockers \$5,000,000 in cash for their Pacific Improvement stock. The Crockers refused to take less than \$9,000,000."

**VIOLENT NEGRO.**  
Horseman Jabbed in the Eye With an Umbrella.  
[ASSOCIATED PRESS DAY REPORT.]  
SAN FRANCISCO, Oct. 13.—J. J. Tompkins, a horseman, was the victim of an unprovoked assault today. He was conversing with a friend when a negro hoodlum interjected himself into the conversation. Tompkins asked the negro to move on, but the fellow became so enraged that he thrust the ferule of his umbrella into Tompkins' eye, entirely destroying the sight.

**MRS. CRAVEN'S PETITION.**  
Charles Fair's Answer Declares Marriage Contract a Forgery.  
[A. P. EARLY MORNING REPORT.]  
SAN FRANCISCO, Oct. 13.—Charles L. Fair has filed an amended answer to the petition of Mrs. Nettie R. Craven, who asked for an allowance of \$5000 a month of the late Senator J. M. G. Fair's estate. The answer declares that the alleged marriage contract on which Mrs. Craven bases her claim is a forgery, and in the main, reiterates statements formerly made by the defense.

**RAISIN GROWERS' CASE.**  
Issue Between Association and Non-Association Packers at Fresno.  
[ASSOCIATED PRESS NIGHT REPORT.]  
FRESNO, Oct. 13.—Judge Risley discharged the receiver appointed in the suit of the California Raisin-growers' Association against O. M. Thompson and Markarian Bros., non-association packers, based on violation of a contract with the association to sell 40 tons of his crop through a pool.  
The packers set up the plea that the association is a trust, restrictive of

## Yosemite Commissioners' Economy.

SAN FRANCISCO, Oct. 13.—The Yosemite commissioners today decided not to exceed their appropriation of \$50,000, and if they cannot secure contracts to improve the valley at their figures, they will undertake the superintendency of the work themselves. It was reported that the road by the precipice was in a dangerous condition, and it was ordered closed. The Central Meadow road will be opened.

**Inquisitive Girl Explodes Dynamite.**  
SALINAS, Oct. 13.—Miss Annie Greve, the nineteen-year-old daughter of a prominent rancher of this valley, was seriously injured by a dynamite explosion today. A brother of the unfortunate girl took three small tin boxes of dynamite home. His sister tried to pry off the cover of one of them, when it exploded and lacerated her horribly. She will be disfigured for life, if she recovers.

**Drunkard Quarrel Between Indians.**  
REDDING, Oct. 13.—Word has been received from Baird, the site of the United States Indian Reservation on the River, twenty-two miles from Redding, that two Indians, while ending a drunken debauch, became engaged in a quarrel, one stabbing the other. The wound is serious, but not necessarily fatal. The Sheriff and Dr. B. E. Stevenson have left for the scene.

**Raising Sugar Beets.**  
MONTEREY, Oct. 13.—The ranchers of Carmel Valley began raising sugar beets for the first time this year, and their experiment has been so successful that many of them intend going into beet culture on a large scale. During the past week several carloads of beets have been shipped from the valley to the sugar factory at Salinas.

**Terrill Convicted of Forgery.**  
SAN JOSE, Oct. 13.—Samuel B. Terrill, the attorney, was today convicted of forgery by a jury in the Superior court and will be sentenced next Friday. The forgery was that of a signature to a mortgage and note by which the defendant obtained \$350 from Richard J. Hawke.

**DEAD PALATINE ROBBER.**  
Body Examined and Identified as a Chicago Physician.  
[ASSOCIATED PRESS DAY REPORT.]  
CHICAGO, Oct. 13.—The body of the man who was killed after trying to rob the bank of C. H. Patten at Palatine, Ill., several weeks ago, and was supposed to be William Lawton, was exhumed today and identified as that of Dr. William L. Lewis of Chicago, who has been missing since the day of the attempted robbery. It is claimed by relatives of Lewis, who were present at the disinterment, that the dead man was of unusual mind, and owing to the excessive use of morphine.

## Those Lowman Ties

at 25c, Worth from 50c to \$1.00.

Last day of the sale today, and if it had not rained they would have all been gone before this. As it is, some of the very choicest ones in the lot remain unsold. Men's and Women's styles, all shapes; rich, elegant silks; worth 50c to \$1.00. Last call at 25 cents.

## THOSE YACHT RACES.

## TRIALS OF SOULS AND NOT OF SAILS.

Sixth Fluke in Cup Contest Finds Owners, Sailors and the Public Alike Disgusted—Excursions Almost Abandoned.

Shamrock Spreads Twelve Hundred Square Feet More Canvas to the Wind. When There is Any, Than Does Columbia.

Sloan, Reiff and Martin Ride Winners at Newmarket—Boston Whites washes the Phillips—Race Results.

## [ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Oct. 13.—The winds asleep in their caverns and the coverlet of white fog drawn over the bosom of the drowsy ocean today lengthened the unprecedented record of flukes in the cup contest to six. As on Tuesday, the yachts did not leave their anchorage inside Sandy Hook. It was useless to make another attempt in such weather. So at the hour set for the start, the Regatta Committee boat poked out to sea through the dense bank of vapor, and announced to the group of vessels assembled about the lightship the same monotonous story that there would be no race today.

Everybody is thoroughly disgusted. The patience of the public is almost exhausted. From 50,000 people who went out on the first day, the crowds have dwindled until it is perfectly safe to say that less than five thousand people were afloat today. The outlook was so gloomy from a money-making standpoint that some of the excursion boats which sold tickets for the series of races were trying today to redeem them with the intention of abandoning their excursions altogether.

The repeated postponements have also worn the patience of the committee and the owners of the two yachts. Sir Thomas Lipton and Commodore Morgan each have a company of invited guests aboard their yachts, but it is very desolate for the hosts, as well as their guests, to lie quietly at anchor inside the dreary sansepit with nothing to look at but blank walls of fog. The delays have been equally trying upon the crews of the races. For more than ten days the tars have been keyed up to racing pitch, and they are beginning to feel the effects of the strain.

Experts estimate that the big club topsail which the Shamrock showed yesterday for the first time contains about eight hundred more square feet of canvas than the similar sail of the Yankee boat. Add to this the excess of a total area of her lower sails, as shown by the official measurements, and the foreigner is capable of spreading something like twelve hundred square feet more canvas to the wind than the Columbia. In light airs, therefore, the Shamrock must have a great advantage, but the patriots are whistling for a spanking breeze that will prevent the hoisting of the race-scraping sails and bring the boats down to even terms in the matter of canvas. Another attempt will be made to race tomorrow.

One of the Columbia's wooden yards was cut in half lengthwise by carpenters on Sandy Hook pier this morning, the intention being to hollow it out and make it lighter.

## EASTERN BASEBALL.

Boston Gets One Run and the Phillies They Get None.

[ASSOCIATED PRESS NIGHT REPORT.] BOSTON, Oct. 13.—Bergen's two-bagger and Hamilton's single in the sixth inning scored the only run of the game. Both pitchers were very effective. The attendance was 1300. Score: Boston, 1; hits, 4; errors, 0. Philadelphia, 0; hits, 3; errors, 0. Batteries—Nichols and Bergen; Platt and McFarland.

Umpires—Emmie and Dwyer. WASHINGTON-NEW YORK.

[ASSOCIATED PRESS NIGHT REPORT.] WASHINGTON, Oct. 13.—Seymour was very wild today, and the Senators won a very ragged game. The attendance was 3000. Score: Washington, 6; hits, 6; errors, 1. New York, 4; hits, 6; errors, 1. Batteries—Macee and Kittredge; Seymour and Wilson.

Umpires—Snider and Latham. PITTSBURGH-LOUISVILLE.

[ASSOCIATED PRESS NIGHT REPORT.] PITTSBURGH, Oct. 13.—In Louisville's ninth inning, after four runs had been made, on account of the heavy fog, the umpire called the game, throwing it back to the eighth inning. The attendance was 1200. Score: Pittsburgh, 5; hits, 9; errors, 1. Louisville, 2; hits, 4; errors, 1. Batteries—Lever and Bowerman; Fisherty and Latimer.

Umpires—Swartwood and Manassau. BALTIMORE-BROOKLYN.

[ASSOCIATED PRESS NIGHT REPORT.] BROOKLYN, Oct. 13.—The Baltimore catcher Dunn bapping in the first inning today, and before they could be sent to the field, six of them had crossed the plate. The attendance was 1100. Score: Baltimore, 8; hits, 11; errors, 1. Brooklyn, 4; hits, 8; errors, 3. Batteries—Bryant and Smith; Dunn and Farrell.

Umpires—Connolly and Hunt. LEXINGTON RACES.

Favorite Charlie Herr Distanced in a Two-Ten Trot.

[ASSOCIATED PRESS NIGHT REPORT.] LEXINGTON, Ky., Oct. 13.—After a day's postponement, racing was resumed today with a slow track. Valpa, the 5-to-20 favorite in the pooling, won the \$2500 West Stake with ease. There was no pooling after the first heat.

The sensation of the day turned up in the 2-10 trot, when Charlie Herr, the favorite, was distanced in the third heat. He had been worn out. He was favorite at 15 to 25 for the field, but after the first heat it switched to Lucille, who was laid up in the first heat. The race split into six heats, and after a hard struggle Titer drove Malcolm Forbes's chestnut mare May Fern to victory.

The Stock Farm purse was a mere jog for Audubon Boy. The two other starters fought it out for second and third money.

The West State, 2:29 class, trotting, value \$2500: Valpa won in straight heats; time 2:16½, 2:15½, 2:16. Dainty Daffo second, Zeller third. Zenus fourth. Louis E., Carrie Shields and Paul Fry also started.

Trotting, 2:10 class, purse \$2000: May Fern won fourth, fifth and sixth heats; time 2:12½, 2:14½, 2:12½. Hallic Rocket won first heat in 2:14½, and took second and third moneys. First and fourth moneys went to May Fern. Monterey, drawn in fifth heat, won second and third heats; time 2:13½.

2:13½. Dr. Leek, Lucille and Charlie Herr also started. Stock Farm purse, pacing, for foals of 1897, value \$1000: Audubon Boy won in straight heats; time 2:24½, 2:24. Nut Lawn and Maiden Russell divided second and third moneys.

## AMERICANS' SUCCESS.

Sloan, Reiff and Martin Each Win a Race at Newmarket.

[ASSOCIATED PRESS DAY REPORT.] LONDON, Oct. 13.—[By Atlantic Cable.] At Newmarket today Earl King, ridden by L. Reiff, at 6 to 1, won an all-age selling plate, "Skeets" Martin finished third with Chaffinch, 6 to 1, in the Southfield Plate.

The Middle Park Plate was won by Democrat, even, with Sloan up.

A two-year-old plate was won by Alako, 8 to 1, ridden by Sloan.

## Oakland Track Events.

SAN FRANCISCO, Oct. 13.—The weather at Oakland was cloudy and the track sloppy.

Purity course: Essence, 110 (Thorpe), even, won; Mountaineer, 113 (Bozeman), 7 to 1, second; Miss Vera, 110 (Kiley), 6 to 1, third; time 1:16½.

Jolly Briton, Loyla, My Secret, Ella Dupoy, Abbiesio and Palapa also ran. One mile, selling: Paversham, 105 (Ruiz), 8 to 5, won; Lethian, 101 (J. Ward), even, second; Correct, 94 (Fauntleroy), 9 to 2, third; time 1:46½. Some also ran.

One mile, selling: Lomo, 97 (Buchanan), 20 to 1, won; P. A. Finnegan, 107 (Frawley), 3 to 2, second; Road Runner, 112 (MacKinn), 7 to 5, third; time 1:49. Merry Boy, Tennessee Maid and Wilmette also ran.

Seven furlongs, selling: Imperious, 105 (E. Jones), 4 to 5, won; Sorrow, 109 (McCloskey), 8 to 1, second; Reolia, 103 (Mounce), 5 to 2, third; time 1:33. McFarlane also ran.

Five furlongs: Etta H., 113 (Duffy), 2 to 1, coupled with Magdalene, won; Bamboula, 92 (Mounce), 9 to 5, second; Campus, 113 (E. Jones), 8 to 1, third; time 1:05. February, Spry Lady, Shellac, Magdalene, Ojal and Tourist II also ran.

## Lord Zen's Feature.

CINCINNATI, Oct. 13.—After a delay of over half an hour at the post in the fourth race, Laton, Lord Zeni, with 115 pounds up, went out and covered a mile in 1:41½, and won in a big gallop. This is the best performance at the meeting. The weather was pleasant and track fast.

Six furlongs, selling: Mound City won, Decide second, Gildaw third; time 1:14½.

Five and one-half furlongs, selling: Ice-drop won, Woodbridge second, Sir Thomas third; time 1:09.

One mile, selling: Hill Billy won, Flop second, Sauterne third; time 1:42.

One mile: Lord Zeni won, Semper Edam second, Eugenia Wickes third; time 1:41½.

Five furlongs: Brooch won, Princess Fedora second, Turkish Bride third; time 1:03.

## Chicago Finishes.

CHICAGO, Oct. 13.—The weather was clear and track fast. Results: Six furlongs: Nellie Fonso won, Alice B. second, Ramlet third; time 1:14½.

Six furlongs: Diggs won, Ferroll second, Violet Parsons third; time 1:26½.

Six furlongs: Basseda won, Nettie Regent second, The Monk third; time 1:14½.

Mile and a sixteenth: Friar John won, Mary Kilmara second, Barataria third; time 1:47½.

Mile: Jimp won, Mr. Johnson second, Jim McClevey third; time 1:40½.

Mile: Tully Fonso won, Streamer second, Moroni third; time 1:39½.

## Dixon Fought Callahan.

PHILADELPHIA, Oct. 13.—George Dixon of Boston and Tim Callahan of this city fought six fast rounds at Industrial Hall tonight, and if a decision had been given, Dixon would have received it.

## Kennedy and Childs.

CHICAGO, Oct. 13.—The fight tonight between Joe Kennedy of California and Frank Childs of Chicago was declared a draw at the end of the sixth round.

## FIGURES THAT TALK.

INTERESTING STATISTICS ON OUR FOREIGN COMMERCE.

Under Republican Rule the Country's Trade With Other Nations This Year Will Exceed in Volume That of Any Other Year in Our History.

## [BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Oct. 13.—[Exclusive Dispatch.] Figures furnished by the Bureau of statistics of the Treasury Department show that the foreign commerce of the United States for this calendar year will exceed in volume that of any previous year in the history of the country, with a slight decrease in the balance in favor of the United States from that of 1898.

Imports of merchandise in September amounted to \$70,461,385, and exports to \$110,437,635. Of gold, the imports were \$2,572,028, and exports \$1,056,749; of silver, imports, \$2,040,914, and exports \$3,622,149.

Imports of merchandise for the nine months ended September 30 were \$585,736,106, against \$465,378,955, September, 1898. Exports were \$903,025,508, against \$869,278,144 a year ago. Imports for the year ended September 30 were \$45,221,599; previous year, \$629,219,231; exports, \$1,268,266,620; previous year, \$1,222,748,231.

The grand total of imports and exports for the nine months ended September 30 was \$1,488,765,614, making the excess of exports \$317,292,402. For the same period in 1898 the total was \$1,344,657,093, excess of exports \$239,893,189. The grand total for the year ended September 30 was \$2,054,618,229, with an excess of exports of \$543,935,031. In 1898 the figures were \$1,851,968,228, with an excess of exports of \$343,529,666.

New Neckwear.

Puffs, tecks, band bows and oxford, new brightly patterned; one glance and you

# OVER AN INCH OF RAIN

IT CAME DOWN YESTERDAY, AND MORE MAY FOLLOW.

All Southern California Receives a Good Drenching—Preparations Made For It and Little Damage Done—Storm at Sea.

If the Weather Bureau forecast for today is fulfilled the rainstorm which has been deluging the entire State will not be over in this vicinity before this evening. The weather man predicted showers for last night and this morning, with clearing weather this evening. There is even a possibility that the clearing weather will only be temporary, for yesterday afternoon the storm was central near San Francisco, and was moving south on account of high barometric pressure to the east of that city, which had a tendency to arrest the progress of the storm toward the east. If he movement continues in this direction, Los Angeles may have a wet Sunday.

The rain of yesterday began falling shortly after 5 a.m. and continued until nearly noon. At first it was a steady shower, not heavy enough to cause all of the water to flow off the surface into the natural drainage channels, but later the size of the drops increased, and for several hours there were frequent heavy downpours, which flooded the streets throughout the city from curb to curb. Most of the culverts and even the large storm drains were too small to accommodate the flow, and hours after the rain had ceased torrents of water were pouring down the streets which drain large areas of the city. Between 5 a.m. and noon 1.02 inches of rain fell. Then the skies cleared and from noon until after midnight there was hardly a cloud to be seen.

The total precipitation for the storm up to last midnight, and also for the season, for there have been no other rains, except a trace, since the beginning of autumn, was 1.46 inches.

## HEAVY IN THE COUNTY.

Heavy as was the rainfall in the city, some of the country points received a heavier drenching. In the mountains the rain continued all day, and until sunset the heavy clouds could be seen hanging over the higher ranges, hiding the peaks of the peaks. The floods of water from the mountain tops throughout the day showed that heavy rain was falling there while the valleys were clear. At Pomona the gauge at the Southern Pacific depot registered .72 of an inch, making the total for the storm a fraction under an inch. In the San Gabriel Valley the rain continued until late in the afternoon. The San Gabriel River was flowing between 800 and 1000 inches of water yesterday at noon, and the rain in the mountains will increase this flow. Plenty of water is assured for weeks to come for use by the electric companies for power-generating purposes. Nearly three feet of snow is reported on the mountains north of Azusa.

## STORM AT LONG BEACH.

One of the worst storms that ever visited that town prevailed all day at Long Beach. There was a howling south wind, and a rough sea. The boat at the end of the pleasure wharf was blown ashore, destroying a portion of the wharf. The sailboat "Eik" dragged her anchor and was smashed to splinters in the surf. Other small craft have been damaged. Rain fell until an hour after noon.

## GALE AT REDONDO.

At Redondo the rain kept falling till shortly before noon. The vessels moored at the wharves put out extra lines and rode the gale without accident. The schooner Jennie Stella, which lost her bowsprit and jibboom when the steamer Coos Bay collided with her last Tuesday night, lay at the same anchorage where the collision occurred, and seemed to suffer no damage from the heavy seas.

## ORANGE COUNTY.

Rain began falling again in the Santa Ana Valley Thursday night, and yesterday it came down in torrents. The precipitation for the storm now aggregates 1.90 inches, and for the season 2.32 inches.

At Anaheim the rain continued until nearly 3 p.m., almost 2 inches falling during the day. The roads between Anaheim and Orange were converted into small rivers, and the small streams, from which all of the water of the day before had not disappeared, overflowed their banks in many places. No serious damage is reported. In some places fences were washed away.

## SANTA BARBARA COUNTY.

In the city of Santa Barbara the rainfall yesterday amounted to .97 of an inch, making nearly 1.30 inches for the week. Last night every sign pointed to a continuation of the storm. While the damage to crops throughout the county, reported at Santa Barbara, has been considerable, it has been ascertained that first reports were unreliable, and that the loss, even under the most unfavorable circumstances, will not be as great as was at first estimated.

On the second range of mountains north of Santa Barbara, there was a heavy fall of snow yesterday morning, the depth near the summit of the range being several feet.

## IN THE SANTA YNEZ VALLEY THE RAINFALL WAS LIGHTER THAN IN ANY OTHER PART OF THE COUNTY.

## SAN DIEGO COUNTY.

At San Diego the weather was showery all morning, with a high wind, which at 11 o'clock was blowing at the rate of twenty-three miles an hour, causing a heavy sea. A heavy rain-storm burst at 1:50 p.m., and the wind continued to blow from the west, causing damage to shipping or buildings was reported. The rain-growers in El Cajon Valley had prepared for a rain, but the intensity of the storm was greater than many of them anticipated, and a part of the crop will be damaged.

At Coronado there were frequent light showers during the morning, followed in the afternoon by torrents of rain. The wind was in the right direction to soon wash the choppy sea into huge rollers, the boom of which against the beach could be heard at a great distance.

## AT VENTURA.

Rain commenced falling at Ventura early yesterday morning, descending in torrents a few hours, the precipitation amounting to 1.35 inches, making for the season 1.55 inches. It is estimated that 50,000 sacks of beans remain unthrashed, and several thousand tons of beans are yet in the fields. The injury to the beans is deemed slight, with favorable weather conditions. The beans will suffer considerable damage. The weather is clear and cool.

At La Cañada two inches of rain fell. The precipitation in the mountains amounted to more than three inches in many places, as the storm continued there for thirty-six hours.

## SAN BERNARDINO.

Rain began falling again at San Bernardino yesterday, continuing in showers, which soaked the ground thoroughly. Fully .85 of an inch has fallen. The orange groves throughout the country will be greatly benefited. The

rainfall on the mountains amounts to 3.15 inches.

## RIVERSIDE.

It began raining again at 7 o'clock yesterday morning, and the downpour continued until the middle of the afternoon, during which time the precipitation amounted to .46 of an inch, making the record for the storm 1.91 inches. Reports from the back country indicated a like precipitation.

## TOBACCONISTS TO UNITE.

Fear Free Admission from Cuba and the Philippines.

(BY DIRECT WIRE TO THE TIMES.) NEW YORK, Oct. 13.—[Exclusive Dispatch.] An effort is being made to unite the tobacco interests of the United States against the possible free admission of the weed from Cuba and the Philippines, in event of the annexation of those islands. A strong appeal has already been formulated in New England and placed in the hands of a Congressional delegation from that section of the country. The appeal points out that the small cost of production in Cuba and the Philippines could, if the tariff wall were removed, ruin the domestic industry. Those who are interested in the various branches of the industry have been anxiously waiting the trend of events, and are preparing for an active fight. They say, however, that it will be next to impossible to unite the various interests in a common, concerted effort, and admit that on that account their cause will suffer. Vice-President Cobb of the American Tobacco Company says that the admission of cigars free from Cuba and the Philippines would lead to the closing of all the domestic factories.

## DEWEY AS A MASON.

ADMIRAL LAYS A CORNER-STONE AT NORTHFIELD, VT.

Institution Where He Received His Earliest Military Training to Have a Memorial Hall—Senator Dewey Delivers an Address. Public Reception at Boston.

## (ASSOCIATED PRESS DAY REPORT.)

NORTHFIELD (Vt.) Oct. 13.—Admiral Dewey today laid the corner-stone of Dewey Hall, which is to be a part of Norwich University, the institution in which the admiral received his earliest military training. The admiral was escorted from his train to the university by the Norwich University Cadets and the First Regiment, Vermont National Guard.

Admiral Dewey spread the mortar, and as the corner-stone was lowered said: "I now declare this stone duly and truly laid, and according to my wish."

Senator-elect Chauncey M. Dewey of New York delivered the address of the day.

At the conclusion of Mr. Dewey's address, Admiral Dewey held a reception for a short time. He left for Boston, where a public reception will be held.

## COMPETING STEAMSHIPS.

Some Lively Rate-cutting by the Great American Companies.

(A. P. EARLY MORNING REPORT.) NEW YORK, Oct. 13.—A dispatch to the Herald from Panama says that the competition between the Pacific Mail and the Pacific Steam Navigation and the South American Steamship companies has begun in earnest on the Central American coast route, the passage rates having been reduced by the first-named company 50 per cent. from Panama to Ocos, in Guatemala, and all intermediate points in Costa Rica, Nicaragua, Honduras and El Salvador. The other two companies, which work conjointly, have reduced the rates 25 per cent. for the same ports.

It is rumored that they propose running next month to San Francisco also, when the competition will become livelier. The German line from Hamburg, touching South Pacific and Central American ports, to San Francisco, is already in the field.

## DR. CURTIS'S LOANS.

Investigators of His Conduct Find Him Technically Culpable.

CINCINNATI (O.) Oct. 13.—The Rev. Dr. Lewis Curtis, one of the agents of the Western Methodist book concern, this city, was subjected last night to a protracted investigation of his official conduct as treasurer of the Freedman's Aid Society, by the board of managers of that body. The specific charge was that he loaned funds of the society at interest without authority and accepted a bonus of \$180 from the borrower, which he subsequently turned into the treasury.

The board at 2 o'clock this morning came to a decision that Dr. Curtis was technically culpable for acting without authority in this matter and ordered the bonus of \$180 paid back to Dr. Curtis as the society had no right to it. Meantime the board asked the charitable consideration of the church for Dr. Curtis, in view of his long and faithful services.

## BREAKFAST ON DRINK.

Coffee Makes Many Dyspeptics.

"Coffee and I had quite a tussle. Two years ago I was advised by the doctors to quit the use of coffee, for I had a chronic case of dyspepsia and serious nervous troubles, which did not yield to treatment. I was so addicted to coffee that it seemed an impossibility to quit. But when I was put on Postum Cereal Food Coffee, I was able to make it in making the change, and today I am a well woman."

"One of the lady teachers in our public schools was sick and nervous. Frequently the only thing she took for breakfast was a cup of coffee. I urged her to try leaving off the coffee and use Postum instead. Went so far as to send her a sample from my box and give her directions. She now uses nothing but Postum Food Coffee and told me a short time ago that she was perfectly well."

It is easy to make good Postum, once a person becomes accustomed to it. I put in four heaping teaspoons to the pint of water and put the Postum in thin muslin bags, drop the bag into the water and after it comes up to a boil let that from that time on it boils fifteen or twenty minutes, then use good cream and you have a drink that will be relished by the Queen." Mrs. Lizzie Whitaker, Kidder, Mo. Postum is sold by all first-class grocers at 15 and 25 cents per package.

## Carter's Dyspepsia Tablets

act as a direct tonic on the digestive organs. All druggists.

# TODAY THE BIG DAY.

The Invitation Committee Now Actively at Work—See to it That Your Friends Are On the List.

## LADIES REPRESENTED.

The Music Especially Prepared and the Whole Matter in Charge of Responsible People—Everything Now in Order and a First-class Time Assured.

No matter what the weather may be today, Saturday, Oct. 14, there will be a gathering of the clans at 8 o'clock sharp in the city of Los Angeles. Invitations have been issued by the committee in charge, embracing not only every ward and precinct in the city but also all the outlying districts.

It is assured that the attendance will be general, and that the country at large will be represented. It is scarcely possible that the importance of the occasion will be overlooked, and it is quite safe to assume that a goodly number of representative people will be present at the festivities. Rain or shine, the plans will be carried out as already announced. Musically speaking, the affair is bound to go down in local history. Moreover, the wives, sweethearts, sisters and daughters will be specially honored. Their tastes, preferences and opinions will far outweigh every other consideration—even the orator of the day will occasionally take a back seat. He is a discreet man and knows when to subside as well as when to speak.

Straightforward business will be the order of the day. Headquarters will be under the Music Hall, No. 233 South Spring Street, where the standard pianos of the world will be found on sale at wholesale prices. During this great special sale you can actually go into Bartlett's and pick out a \$525 piano for \$288, and a \$400 one for \$246.

What you ought to do is not only to come along yourself, but also see that your friends join the movement. Out of the twenty different makes of pianos, with various styles of finish, it would be a strange taste indeed that could not be satisfied. Especially is this true when it is an acknowledged fact that several of these makes are recognized as standard and the wide world over. Such names as Steinway, Weber, Kimball, Wheelock and many others of splendid value are to be found. Positively it is the one great opportunity to buy a first-class high-grade piano at wholesale cost, and a chance which is not likely to present itself again. The terms are so reasonable and the prices so low that you cannot afford to ignore this opportunity nor delay action. Today is the great day. Will you join the movement? BARTLETT'S MUSIC HOUSE.

He acts wisely who acts quickly. The sale of the Fisher Piano stock positively closes this evening. We have given you fair warning and do not blame us if you do not secure a piano at a bargain price.

The reduced prices on musical instruments, large and small, of all kinds, will hold good until the store closes tonight. It is the last day of the greatest three-week sale of musical instruments ever known on this Coast.

We know a number of people who have not taken advantage of present conditions simply because they could not pay spot cash. That idea is all wrong—you can just as well pay at your convenience and save from \$50 to \$200 today.

Not an instrument offered we will not guarantee in every respect. Of course we do not claim that the cheaper pianos are as good as the matchless Shaw or other of the very high-priced instruments, but we will tell you just exactly what to expect from each instrument, and you can safely rely on getting a great deal more than your money's worth.

Come today. The store will be open throughout the evening.

## "GIVE ME BACK MY BOY."

C. W. JACKSON STILL SEARCHING FOR HIS WIFE AND SON.

Police Find the Alleged Abductor, but He Professes Ignorance of the Whereabouts of the Missing Woman and Child.

C. W. Jackson, the San Diego man who has lost his wife and little son, whom he believes to be hiding in this city, came in contact yesterday with a man whom he accuses of alienating his wife's affections, but he has not yet found his family.

Shortly before 2 o'clock yesterday afternoon, a man named Morris, who is a brother-in-law of Jackson, and lives in San Diego, walked up to Officer Tyler at Spring and First streets and pointed out a man whom he requested the officer to arrest on the charge of abduction. Tyler hailed the alleged abductor and requested him to take a walk to the Police Station. The man complied with the request, and accompanied the officer and Morris into the presence of Capt. Roberts, who immediately referred them to Deputy District Attorney Chambers.

Arrived at Mr. Chambers's office, Morris told that official that the man who was under detention had run away with the wife and son of C. W. Jackson, and he requested that a complaint be issued against the culprit for the abduction of the boy. Mr. Chambers took the view that if Mrs. Jackson had left San Diego of her own free will and taken her boy with her, there had been no infraction of the law, and he could issue no complaint.

The man against whom the accusation was made gave the name of O. Hosley. He said he was a dealer in livestock, and gave his address as No. 231 North Broadway, when in this city, No. 172 First street, when in San Diego. He said he left San Diego last Sunday and declared that he did not know anything about the whereabouts of Jackson's wife and child.

As there were apparently no grounds upon which Hosley could be lawfully detained, he was allowed to leave his department, but on the stairway he met Jackson, the deserted husband. An animated scene ensued.

"Give me back my boy and you may keep the woman," exclaimed Jackson. Hosley denied that he knew where the woman or child were hiding. "I have troubles enough of my own and am not responsible for your family," Hosley replied, in substance, to Jackson's accusations.

Hosley returned to Mr. Chambers's office in company with Jackson, where the latter told his troubles to the Deputy District Attorney and asked for a complaint against the alleged abductor of his wife and child. Mr. Chambers, as before, could see no reason for legal interference, and informed Jackson that he would have to adjust his grievance with Mr. Hosley as best he could without the aid of the law.

The two men adjourned to the ante-room of the Deputy District Attorney's office, where they held an animated conversation in the presence of Police Sgt. Smith, who stood by to see that no violence was done. Hosley showed great indignation at being detained on such a charge. He had intended to start for San Diego at 3 o'clock, but missed his train on account of his enforced detention.

"Come with me to my room and we'll talk this matter over, but if you bring that thing with you," said Hosley, pointing to Morris, "there'll be trouble."

Jackson and Hosley thereupon left the Police Station in each other's company for further conference, while Morris slunk away alone.

Hosley, when seen at the Clifton House last evening, reiterated that he knew nothing whatever of the whereabouts of Jackson's family, and declared that he considered it a great outrage to be detained on such a baseless charge. He expressed his contempt for Jackson's brother-in-law, Morris, who had pointed him out to the police, but spoke rather kindly of Jackson, for whom he seemed to harbor sympathy.

"I promised Mr. Jackson that I would assist him all I could to find his family," said Hosley, "but I know no more of their whereabouts than he does. I do not care to say anything about the domestic troubles which have resulted in this unhappy situation."

Special display of New York October blocks today and at \$3.

the false alarms sent in through alarm boxes, but under pressure confessed that he knew of a gang of boys who, like himself, were implicated in fooling the firemen.

It appears that the lad has a mania to be a fireman. He formerly hung around the engine-houses and picked up a great deal of information in regard to the working of the department. Since becoming an inmate of the Newsboys' Home he has organized a fire company among the boys, of which he is chief. Several incipient fires in the home of late are supposed to have been started by the youngsters themselves, just to give the juvenile fire company practice.

Hicks was discharged from custody on promise of good behavior in the future, and that he would not tamper with the boys whom he knew to be tampering with the fire department.

## ALLEGED EXTORTION.

OFFICER MUGNEMI CHARGED WITH TAKING A BRIBE.

Saloon-keeper Admits Having Given Mugnemi Money, but Refused to State What For—The Latter Claims That It Was a Loan.

A rumor was current yesterday that Joe Mugnemi, a special police officer and a deputy under Constable Yonkin, had accepted a bribe of \$15 from Emil Castellano, proprietor of the Washington saloon on North Main street, opposite the plaza.

It was charged that the money was paid by Castellano in order to secure immunity from prosecution at the hands of Mugnemi for an alleged violation of the Sunday-closing law.

When Mugnemi heard of the matter he became wildly excited, and denied that he ever had anything to do with Castellano in the manner indicated. He was emphatic in his assertion that he had never received any money from the saloon-keeper. Last night he insisted on the matter being reported to a policeman accompanying him to the saloon in order to investigate the matter. It had been reported that Castellano had admitted giving Mugnemi the money.

When Castellano was visited last night, Mugnemi asked him, in the presence of the other witnesses, if he had made the assertion credited to him. Castellano acknowledged that he had made the statement, and again asserted that he had given Mugnemi \$15, but declined to say for what reason. When pressed by Mugnemi to tell what the money was for, he said that he did not care to discuss the matter further. On leaving the place Mugnemi stated that the money which he received was an ordinary loan, and that he had repaid \$5 of the amount, leaving a balance of \$10 which he owed Castellano.

The saloon-keeper made the assertion that on last Monday forenoon one of the police detectives called on him and urged him to sign an affidavit to the effect that he had paid \$15 to Constable Brown in order to secure immunity from prosecution on a charge of violating the Sunday-closing ordinance. He says he told the detective that he could not do so, as it would be untrue. Constable Brown, accompanied by Deputy Brakeshuler, called on Castellano Thursday night in regard to the matter. Castellano assured them that he could not imagine on what grounds the detective asked him to sign such a paper.

## UNIVERSITY NOTES.

Football Today—Sudden Death of Daniel T. Clark.

The Los Angeles High School football team and the eleven of the freshman class of the college will line up for the first game of the season on the University campus today. Manager Hoffer of the University team has had the gridiron carefully prepared, and the rains have left it in fine condition for playing, so that a good game is promised. The freshman team is made up of green men to the University, while the High School boys will be lighter, but more experienced. The game will be called promptly at 2:30 o'clock. The line-up will be:

U.S.C. Freshmen. High School. C. Enyeart (capt.) right end Canfield Beckett Right tackle McLain Waterman Right guard Wiggins Christy Left guard Stephens L. R. Enyeart Left guard Baskerville Broderson Left tackle Kanagy Leach Left end Brant Yerxa Right half Stephens Flint Left half C. Rees McAllep Quarterback W. Rees Marble Fullback Wynn (capt.)

Thirty-eight students died last night from the effects of the University. Mr. Clark was a man of 60 years of age. About 19 o'clock Tuesday night he left the drug store of H. L. Park, at the corner of Thirty-eighth street and Wesley avenue, to go to his home at 1234 West 38th street. He did not reach the house, and was found early Wednesday morning, unconscious in a vacant lot next his home. He had been lying there for some time, but did not recover consciousness. Mr. Clark came from Michigan three years ago and located in the University. He leaves two sons, Ernest M. Clark, with whom he resided, and John H. Clark, who lives in Detroit, Mich. The funeral will take place today, the burial being in Evergreen Cemetery.

Dr. James H. Hoose lectured in the University chapel yesterday afternoon on "Property as a Dominating Factor in Social Evolution." This was the second address in the course on biometrics which has been arranged for successive Friday afternoons by the science department of the university. The lectures aim to disprove the existence of any conflict between science and religion in the doctrine of evolution.

Miss Florence Tilden, an alumna of the university, has been elected librarian at the college.

## COLAN WAS VENGEFUL.

Refused Liquor, He Heaved a Rock at the Barkeeper.

Tom Colan was arrested yesterday on a warrant charging him with assault, and will have to explain in court why he heaved a rock in the "Remember the Maine" saloon. The story told by the proprietor of the saloon, who swore to the complaint yesterday, is to the effect that Colan entered the place about 12 o'clock Thursday night and demanded a drink. On being refused he attempted to go behind the bar to help himself, but the proprietor called, whereupon Colan ejected the latter from the saloon. The latter then waited until the officer had disappeared, when he again entered the saloon with a big rock, with which he attempted to smite the man behind the bar. The man tucked, and the rock shattered a large mirror. All of which cost the proprietor much coin of the realm, to say nothing of anguish and vexation of spirit, so he hied himself to the District Attorney's office yesterday and invoked the punishment of the law on the despoiler of his property and his peace of mind. Tom Colan is said to be a brother of Colan, the prizefighter, who recently went to jail upon his inability to file a peace bond for threatening to do bodily violence to his aged father.

## KOHLER

"The Oriental Seer."

# The Times

THE WEATHER YESTERDAY.

U. S. WEATHER BUREAU, Los Angeles, Oct. 13.—[Reported by George B. Franklin, local Forecast Official.] At 5 o'clock a.m. the barometer registered 29.77; at 5 p.m., 29.83. Thermometer for the corresponding hours showed 82 deg. and 89 deg. Relative humidity, 5 a.m., 84 per cent.; 5 p.m., 72 per cent. Wind, 5 a.m., northeast, velocity 5 miles; 5 p.m., southwest, velocity 5 miles. Maximum temperature, 89 deg.; minimum temperature, 82 deg. Rainfall past twenty-four hours, 1.00 inches; rainfall for season, 1.33 inches. Barometer reduced to sea level.

DRY BULB TEMPERATURE.

Los Angeles ..... 82 San Francisco ..... 43

San Diego ..... 54 Portland ..... 48

Weather Conditions.—A storm of considerable energy is central this morning in the vicinity of San Francisco. The barometer read 29.68 at 5 a.m. The pressure is high from the plateau regions eastward, which will probably retard the eastward movement of the storm center. Rain is reported from stations south of the Columbia River to the Mexican border, in Arizona and Utah, and snow in Nevada and Idaho. Cold weather continues on the North Pacific Slope, in the mountain sections and Upper Missouri Valley. The temperature has risen in Southern California.

Forecast.—Local forecast for Los Angeles and vicinity: Continued cloudy weather to night and Saturday morning, with rain; possibly clearing by Saturday evening.

SAN FRANCISCO, Oct. 13, 5 p.m.—Weather conditions and general forecast. The following maximum temperatures were reported from stations in California today:

Eureka ..... 52 San Diego ..... 64

Fresno ..... 52 Sacramento ..... 50

Los Angeles ..... 82 Independence ..... 52

Red Bluff ..... 50 Yuma ..... 76

San Luis Obispo ..... 60

San Francisco ..... 43 Maximum temperature, 82 deg.; minimum, 44 deg.; mean, 63 deg.

The pressure has risen over the northern half of the Pacific Slope, and has fallen slowly over Utah, Nevada and Arizona. Rain is reported from nearly every station in California. At San Francisco the rainfall amounted to 1.44 inches in the past twenty-four hours; at Los Angeles, 1.00 inches, and equally heavy rainfalls have occurred over the Coast and valley sections. At Fresno the maximum is reported with a rainfall of .84 of an inch. The temperature has fallen from 4 to 6 deg. over the greater portion of California. Rain has been reported in Utah and Western Arizona. Light frost may be expected in the northern portion of California Sunday morning. A maximum wind velocity of thirty miles per hour, from the northwest, is reported at Eureka.

Forecast made at San Francisco for thirty hours, ending at midnight, October 14:

For Northern California: Clearing Saturday; continued cool weather; brisk northwest winds.

Southern California: Clear, Saturday morning; fair Saturday; southerly, changing to north wind.

For Arizona: Showers Saturday.

For San Francisco and vicinity: Fair Saturday; fresh northwest winds.

## ALL ALONG THE LINE.

Next to the rain itself the most cheering thing resulting from the storm is the great acreage to be plowed for next season's crops of vegetables and cereals. The lessons of the past dry years have been well learned, and every available acre will be seeded in consequence. Our coastwise exchanges tell of thousands of acres of new land to be plowed, and show forth the renewed energy in all sections. Real estate is remarkably active and building is at the booming point. City property will soon feel the helpful influences, and one really prosperous year will rehabilitate Southern California and repay the men who, through drought and commercial stagnation, have been true to her interests, even to the extent of great personal loss. The new dispensation is inaugurated with a plentiful rain and new conditions of the most hopeful character are created on all sides.

The Los Angeles County Teachers' Association meets in the High School building in this city this morning and will discuss many things of deep interest to the profession, but in the interests of soul-lifting and brain-paralyzing oratory it would please a "whole raft" of people whose mental processes are cast in a tawdry mold, if the teachers would discuss the proposed "children's school-savings-bank" question. Subjectively, objectively, relatively, and in every other way known to the richest vocabulary among them, this theme is of the supreme importance, eclipsing even the absorbing questions of the high price of chalk, rubber heels for the teachers or "rubber necks" on the school board. Will not some one of the great number of round-necked, gaselle-eyed Hobbes spring this question on the startled air, killing two stones with one bird; i.e., bring up something of current interest, and thereby assassinate the customary hoary and chestnutty "you-will-observe" of such meetings?

Wildly-gesticulating, fiercely-glowing and profanely-swearers men were to be seen in the early morning hours of yesterday in all the residence districts, making frog-jumps and goose-steps from the sidewalk to the street and back again, with great regularity and vivid distinctness. They shook their fists at the fronts of houses, and were shaken themselves by suppressed wrath. These things are true and remind us that the average man, who is dodging sunholes in the sidewalk, cannot extend the glad hand and smile to a man who owns premises whereon is a tree or fence, the long lines of which, laden with rain and liquid mud, have just "swished" in his face and dumped a muddy conglomerate down the spine of him. One tortured individual forcefully, if inelegantly, voiced his grievance thus: "Howinell kin I give the high handshake to a son-of-a-sea-cook who is too mean or too lazy to cut the foliage on his home premises, and then goes to Good Citizenship meetings and makes everybody tired?" Then, with supreme disgust he added: "I wouldn't be found dead doing it; not on your pajamas." There is an ordinance against such neglect, and this brings the matter up to the police department and patrolmen.

Death of William Scott.—Dr. Mott of Santa Paula telephoned to W. L. Hardison of this city yesterday stating that William Scott, who was accidentally shot at Santa Paula last Wednesday morning, died yesterday.

## CRASH OF PLATE GLASS.

SERIOUS ACCIDENT IN THE W. P. FULLER COMPANY'S STORE.

Two Workmen Literally Buried Under a Mass of Broken Glass Which Cut and Bruised Them. Heavy Property Loss.

A peculiar, as well as serious, accident occurred in the W. P. Fuller Company's glazing-house on North Los Angeles street, yesterday morning, resulting in the injury of two employees and the demolition of plate glass valued at several thousand dollars.

The victims of the accident were Archie L. Reed and V. Ranzoni, both of whom sustained painful cuts and bruises by being caught under a mass of broken glass.

Four or five men were engaged in extracting several large plates of a required size from a rack of assorted plates, when the accident happened. The plates in store are arranged in slanting layers, and when a certain size at the bottom or in the interior of a bunch is wanted, those on top are raised to a perpendicular position and held there by two or more of the workmen while their assistants extract the plate that is desired.

Reed and Ranzoni were holding up a bunch of plates weighing probably a ton or more, yesterday morning, while other employees were removing a plate of particular size wanted. In some inexplicable manner the mass of plates being held on edge by the two men named, lost its equilibrium. The weight was more than the men could support and the immense pile of glass began to topple toward them. Ranzoni went to his hold and tried to escape as soon as he felt that the glass was going to fall, but the mass struck him just as he reached the end of the space between the racks, and his head was struck by the falling mass, and he was literally buried under a pile of broken glass.

To extricate the men from their perilous position was a perilous task. All the men in the store rushed to the rescue as soon as the crash occurred, and several of them had their hands cut in endeavoring to dig their unfortunate fellows out. Ranzoni was released without much difficulty, but Reed was so completely buried that the wood work of the rack against which he was pinned had to be sawed off before the rescuers could reach him.

When eventually rescued, the victims were hurried to the Receiving Hospital in the patrol wagon, where surgical attendance was rendered them.

Reed, who is a young man and a grandson of the late Rev. D. Reed, D.D., for many years pastor of the First Baptist Church of this city, was found to have a shoulder crushed and divers cuts about the face. He narrowly missed losing his left eye. The left temporal artery was cut and he bled profusely. His injuries, however, are not such as to preclude his speedy recovery. He was removed to his home at No. 524 South Figueroa street after having his wounds dressed at the Receiving Hospital.

Ranzoni was removed to his home on Boyle Heights. He is a married man about 50 years old, and has been in the employ of the W. P. Fuller Company for a number of years. He was hurt about the head and is believed to have had ligaments torn loose in his chest.

The rack of glass adjoining the one which the workmen let fall was demolished, also, by the concussion. The damage is estimated at between \$2000 and \$3000. Some of the larger pieces of broken glass can be saved by being cut into smaller sizes, but most of the plates broken were shattered beyond use or redemption.

IRRIGATION MEETING.

Address to Be Given Today at the Chamber of Commerce.

A meeting will be held today at 2 p.m., at the Chamber of Commerce, in the interest of the national irrigation movement. George H. Maxwell, executive chairman of the National Irrigation Association, will give an address, explaining the superiority of the plans of the national association over those of the proposed State organization.

The meeting will be a public one, and all persons interested in the irrigation problem are invited to be present. In view of the importance of the subject to be discussed, it is expected by those who arranged for the meeting that there will be a large attendance.

Robison Exonerated.

The charge against Hugh Robison of Hanford of cutting government timber in King's River Cañon, was dismissed in the United States District Court yesterday, upon motion of District Attorney Flint. A letter was offered in evidence, showing that the timber had been cut by one John Fox of Millwood, with whom Robison was associated in business, and the prosecuting attorney moved dismissal of the case.

Dolan's Close Call.

John Dolan, while in a beastly state of intoxication, fell down on North Main street yesterday morning, and cut an ugly gash in his chin. Stupefied by liquor and the blow, he was unable to get up, so he lay in the rain until Special Officer Mugen came along and sent him to the Receiving Hospital. Dolan was nearly chilled to death and his pulse had almost ceased to beat when he was rescued.

# THE PUBLIC SERVICE. IMMEDIATE ACTION.

## THE WATER BONDS WILL BE SOLD AT ONCE.

Council Will Probably Authorize  
the Ordinance on Monday—More  
Diphtheria Cases—Board of  
Public Works.

Edith Shaffer Accuses Her Father  
of Being Unnatural Toward Her  
and Never Wants to See  
Him Again.

Dry Goods Merchants in Litigation.  
Lighting Company Sues the  
County—Supreme Court  
Adjourns.

The Council has practically decided to advertise for bids on the water bonds at once, and unless something unexpected happens the ordinance authorizing the City Clerk to do so will pass at the session next Monday. This action has been deferred for over a month owing to possible legal entanglements that might arise, but the City Attorney now believes that it is for the best interest of the city to take immediate action. The City Attorney yesterday drew up a form of report for the Water Supply Committee and that will probably be approved by the committee today.

Two new cases of diphtheria have resulted from that of Willie Vaughn, who died of the disease at No. 152 West Twenty-second street a few days ago. The boy was treated by Christian Science methods. Many people were exposed to the disease.

Owners of property bordering Cottage place are getting impatient at the delay on the part of the Board of Public Works in making a report on the matter to the City Council, and yesterday petitioned the board for an answer of some kind. The board was obdurate, however, and the matter went over another week.

Shattuck & Desmond entered a protest against the storm water which comes down Alameda street and creates a flood in the vicinity of Ninth street. The only practical suggestion made to remedy the condition was to build a storm drain from Alameda and Sixth street to the river at a point further south. Such a drain would cost in the neighborhood of \$60,000.

The people residing near the Ann-street school have entered a strong objection to the erection of an oil refinery in the neighborhood. A proposed ordinance will be drafted and submitted to the Fire and Water Committee for approval, placing the refinery of the city under the same regulations as are now in force regarding tanneries.

Edith Shaffer, who is now at a rescue home of the Salvation Army, was in Judge Smith's court yesterday, opposing her father's petition for appointment of a guardian for herself. She accuses her father of being hideous toward her, and says that she never wants to see him again.

A Santa Barbara merchant named Rogers is suing Crandall, Aylsworth & Haskell of this city for \$450, alleged to be due on agreement regarding the exchange of mercantile stocks. Plaintiff spruces up his complaint with allegations of fraud.

The Long Beach and San Pedro Electrical Company asks judgment in Judge Fitzgerald's court for \$122 against the county.

The Supreme Court adjourned its Los Angeles sessions for the October term yesterday to San Francisco. Chief Justice Beatty, however, still here to listen to a habeas corpus proceeding this morning.

[AT THE CITY HALL.]  
NO FURTHER DELAY.

COUNCIL WILL AUTHORIZE THE  
SALE OF THE WATER BONDS.

City Attorney Prepares Form of Report for the Water Supply Committee—Christian Science and Diphtheria—Public Works Considered.

It has practically been decided that there will be no further delay in the proceedings of the sale of the water bonds. Several members of the Council have been very anxious that the bonds should be sold as soon as possible, and the City Attorney has reached the conclusion that it will be for the best interest of the city to advertise for bids at once. The special election at which the bonds were authorized was held on August 23, the vote in favor of their issue being exceptionally heavy. Since then the proceedings have been delayed by one thing and another, until not only some of the Councilmen, but many citizens, have become anxious to have something done.

Several legal complications have been injected into the situation by the suits filed in the Federal Court, either by or at the instigation of the Los Angeles City Water Company. At first it was feared that these suits would prove to be of such a nature as to would cast a cloud on the bonds and interfere with disposing of them to advantage. A thorough investigation of the character of the suits brought by the water company to prevent or delay the issuance and sale of the bonds has confirmed the City Attorney in the belief that there is nothing to be gained by deferring action any longer, while much might be lost to the city by pursuing such a course.

It was first proposed to advertise the school bonds for sale and await the return of the bids. If they proved satisfactory, it would be taken as an indication that the bonds were not so eventful in value as the water bonds, and that the suit brought, ostensibly to test the legality of the University annexation election, would in any event invalidate the sale of the water bonds for a time, but it is not thought that they will have any permanent effect upon the purchase of the water plant at the sum fixed by Arbitrators McNeill and Kays.

Some of the Councilmen are afraid that if it should come to an issue in the courts the city would not be able to secure the revenue of the water company except for the time that it takes between the actual tender and the date when the water company actually turns over the plant to the city. The water company now derives a big revenue every month from the sale of the commodity, and has endeavored the best legal talent to filibuster in order to put off the day of surrender to the

city as long as possible. It is believed that if the city made the actual tender of the amount of award just as soon as it is possible to do so, (thousands of dollars will be saved to the municipality.

At the executive conference of the Mayor and Council, held at the City Hall Thursday afternoon, the City Attorney explained the conditions to the officials present, and it was decided to go ahead with the matter as soon as the observation of legal forms would allow. At the session of the Council on Monday the question of the sale of the bonds was taken up, and the Water Supply Committee, and consequently it was agreed that the matter should come up in the form of a report from the City Attorney. The City Attorney yesterday made out the form of the report, and it is probable that it will be approved by the Water Supply committee today, and will go to the Council on Monday. The report states:

"That the City Clerk be instructed to advertise for sealed proposals to buy the hereinafter designated bonds of the city of Los Angeles by causing to be published a notice inviting such sealed proposals for a period of three successive weeks before such proposals are to be opened, in the Los Angeles Record, and also in said newspaper shall be published during said time, and also by publishing a notice inviting such proposals three times, once each week, for three successive weeks, before the time when such proposals are to be opened, in the daily Bond Buyer, a newspaper published and circulated in the city of New York, State of New York. Such notice shall specify that proposals to buy the hereinafter designated bonds will be received up to 11 o'clock a. m. of the fourth day of December, 1899, and shall further specify that proposals will be received as follows:

"First—Proposals to purchase 2000 bonds of the city of Los Angeles for the sum of \$1000 each, and forty bonds for the sum of \$250 each, aggregating \$2,000,000. The bonds being designated waterworks bonds, and bearing interest at 3 1/2 per cent. per annum, payable semi-annually, the first day of November 1, 1899, being serial in character, and one-fourth of the whole number maturing each year, during forty years from November 1, 1899, said bonds being the whole of said issue;

"Second—Proposals for purchasing a portion of the above issue of the waterworks bonds, consisting of twenty-four bonds for \$250 each, one of said bonds maturing each year during twenty-four years from that date, and also 1200 bonds for \$1000 each, fifty-two of the same maturing each year during twenty-three years, and four of the same maturing twenty-four years after the date thereof.

"That the City Council of said city reserves to itself the right to reject any and all bids, and that all bids must be accompanied by a certified check for the sum of 5 per cent. of the par value of the block of bonds bid, which check to be returned to the order of the Mayor of said city, and being a guarantee that such bidder will perform the conditions of his bid."

MORE DIPHTHERIA CASES.  
Christian Science Treatment Has  
Serious Results.

As a result of the Christian Science methods of dealing with diphtheria, two new cases have already developed from the sickness of Willie Vaughn, who died from the disease at No. 152 West Twenty-second street a few days ago. The boy, who was 14 years old, was taken very sick, but the parents, who are Christian Scientists, tried to persuade him that there was nothing the matter, and he was allowed to go to school until no longer able to do so. After he was confined to the bed, the children of the neighborhood were allowed to visit the house, and the case was not reported.

When Health Officer Powers heard of the death of the boy from a neighborhood, he immediately established a quarantine, but expressed the opinion at the time that it was too late to prevent the disease from spreading. A few days ago Violet Leach, a young girl of 8 years, who lives next door to the house still under quarantine. Yesterday the family asked the officer to have the quarantine on their home raised, and stated to the Health Officer that all of the family were perfectly well with the exception of a slight irritation of the throat, caused by the fumigation of the house. An investigation, however, revealed the fact that Birdie Vaughn, a young girl who had died of diphtheria, had had decided symptoms of diphtheria. One of the tonsils had a grayish coating, and the throat was in a way of an unnatural nasal twang. Dr. Powers refused to consider raising the quarantine, and took a culture from the young girl, which will be decided definitely by this morning, whether the case is really diphtheria or not.

Dr. Powers said last night that he had not seen in his own mind but that the girl was afflicted with diphtheria, and that it resulted from the senseless handling of the previous case. Nothing could be done in the way of medical attention for the young girl, and if the family are allowed to have their own way it is probable that no doctor will be employed to attend to the case.

The neighbors are badly frightened over the new development, and are much incensed at the foolish action of the parents in trying to apply the faith cure to contagious diseases. The family are asked to look upon the matter with the stoicism of fatalists, and it is said that when the boy died not one of them dropped a tear at the funeral. The Health Officer is sorely exercised over the matter, and believes that some regulation should be enforced that would compel similar cases to be reported to the authorities.

BOARD OF PUBLIC WORKS.  
Cottage Place and Methods of Drainage Discussed.

The property-owners along Cottage place are much troubled at the delay on the part of the Board of Public Works in acting on their petition asking the abandonment of a certain part of the street as laid out in the original Hancock survey. Yesterday several of those interested appeared before the board and entered a solemn protest against having the consideration of the question any longer. In effect, they stated that the continued postponement of the matter had driven them to a state of desperation, where they were prepared to know the worst, and they were by no means sure in their own minds but what a verdict against them would be preferable to longer suspense.

The plea for the abandonment was first brought to the attention of the Council several days ago, and was referred to the Board of Public Works. Since that time the matter has come up every week, but on one pretext and another the Board has been put off again and again. The property in question borders Cottage place, which is an alley fourteen feet in width, running north and south. The west line of Cottage place corresponds with the west line of an avenue ninety-nine feet wide, which, in existence, would run north from Pico street on the prolongation of Figueroa street. This avenue was originally surveyed from the north to the south, and the boundaries of the city were established by the survey.

The street has never been opened, and the city has collected taxes on the property bordering the alley for nearly forty years. The street, both north of Ninth and South of Tenth street, has been abandoned, and as the opening of the street would cause serious

inconvenience to the property-owners, who have built cottages along the east side of the street, and they wish to have that part of the original survey not included in the alley abandoned. A. S. Robbins and the Francisco estate are the parties most interested in having the street lines abandoned, and their representatives have been before the Board of Public Works at every meeting for weeks. An objection to such action on the part of the Council is said to have been made, but nothing has ever been said about it in the open session of the board.

The City Attorney has given it as his opinion that the city has long ago forfeited its right to the property as a street, and its abandonment will probably result eventually. On the fact that Councilman Todd wished to investigate the matter personally, the recommendation of the board went over another week.

WISH STORM-WATER DISTRICT.  
Shattuck & Desmond and D. J. McGarry have petitioned the Council to take some steps to divert storm water from Alameda street, and the petition was considered yesterday. It is claimed that owing to the grading of many of the streets north of Ninth in such a manner that the water all discharges from them into Alameda, and under condition of affairs has been created along that street. The storm water from the vicinity of Elysian Park and from the streets north of Ninth is said to be a point as far south as Ninth street and their quota to help swell the torrent, with the result that a regular river is formed.

The petition asks that some means be devised to divert the water to the river at some point north of Ninth street. The culverts now in place have proved inadequate to carry off the water, and the petitioners claim that it is stated that serious damage to property might result. All the storm water from the vicinity of Elysian Park and from the streets north of Ninth is said to be a point as far south as Ninth street and their quota to help swell the torrent, with the result that a regular river is formed.

D. J. McGarry appeared before the board and personally stated the case. He said that while he was aware that the homes in the vicinity of the storm water were not mansions, yet they were just as dear to their owners as the more expensive residences in other parts of the city, and he believed it only fair that they be given some protection from a condition that had been created by the Council. If a part of the water could be diverted to the river at a point near Fourth or Sixth streets the serious conditions that prevail could be mitigated to some extent.

The difficulties that beset the case are that the bed of the river north of Ninth street is at a lower level with Alameda street, and in some places higher. The contour map shows that it would be almost impossible to divert the water to the river by artificial means. Alameda street was at one time the bed of the river and it is natural that the storm water from the streets north of Ninth should flow to the river at a point near Fourth or Sixth streets the serious conditions that prevail could be mitigated to some extent.

The people residing on Elmira and Ann streets, near Magdalena street, are much exercised over an attempt to establish an oil refinery in the neighborhood. The location of the refinery is within 600 feet of the Ann-street school, according to the statements of those who seek to have it suppressed and it is urged that it will prove a decided nuisance to the neighborhood, and will also hurt the public school. The odors that will arise from the refinery if it is allowed to locate in the neighborhood are depicted as something awful, the chief objection being made to the sulphuretted hydrogen gas, which is said to be very poisonous.

O. P. Wideman and William Thatcher appeared before the board yesterday to protest against the proposed ordinance to erect an oil refinery. It was finally decided to draft an ordinance and present it to the board at a subsequent meeting for their approval. The ordinance would be in force regarding tanneries that are now in force regarding tanneries, and it makes it obligatory to secure the consent of three-fourths of the property-owners within two blocks and to have the ordinance approved by the Board of Health. The Board of Public Works informally discussed the question yesterday, but no definite action was taken until the proposed ordinance is drafted.

ROUTINE BUSINESS.  
The petition of W. H. Maurice to be granted the right to extend a spur of the track in the Hawaiian Lumber Yard across Pedro street just above Third street, to the Central Warehouse now used by Swift & Co. pork packers, was sanctioned by the board, and the attorney was instructed to present the necessary ordinance.

The board recommended that the petition of Thomas Milliss, asking that thirty feet on the north line of the Milliss addition to Vermondale, left from the street, be granted, and the abandoned and vacated, be granted.

The petition of D. R. Brearley, Abbot Kinney et al., asking that a culvert be placed across the street at the corner of Marion street to carry off storm water, was referred to the City Engineer with instructions to report to the Council the proper method to remedy the existing conditions.

Tax Collections.  
The tax collections vary but little from day to day. Thursday \$2583.87 was collected on real property and \$307 personal property. Yesterday's collections amounted to about \$3000 on real property and \$150 on personal property.

DRANK CHLOROFORM.  
Sick Woman Became Despondent and Attempted Suicide.

Mrs. Mary Willard, about 35 years old, attempted to commit suicide last night by drinking chloroform at the lodging-house at No. 223 South Main street. She was discovered before becoming unconscious, and was hurried to the Receiving Hospital, where, by prompt action, Police Surgeon Hagan saved her life.

Mrs. Willard and her husband, who is a laborer, came to Los Angeles from San Diego about a week ago. The woman has been suffering from the past three years, and has recently become very despondent. A two-ounce vial which had contained chloroform was found in her room, but she had destroyed the label.

## [AT THE COURTHOUSE.] YOUNG GIRL'S LOATHING.

SAYS SHE NEVER WANTS TO SEE  
HER FATHER AGAIN.

Little Edith Shaffer Alleges That He  
Has Been Heavily Unnatural  
Toward Her and Wishes to Be  
Kept Away from Him.

Little Edith Shaffer does not like— even loathes—her father. She says horrible things about him, and has told most repulsive stories of his conduct to the District Attorney. Edith was before Judge Smith in Department Two yesterday to oppose her father's petition that Mrs. Kate Nussler be appointed her guardian.

The girl is only 14 years of age. She first became known to the District Attorney's office through frequent visits there for complaints against her father for alleged indecent conduct toward her. Her stories from time to time, however, did not agree, and no formal steps were taken in her case until yesterday. Edith was taken to the Salvation Army Rescue Home in East Los Angeles. There she has been domiciled for the past two weeks or so.

According to his petition, the father is a buyer of high which necessitates frequent absence from home, and his daughter used to stop with Mrs. Helman at No. 531 Banning street. Mrs. Nussler's home is at No. 526 Banning street, and while Edith Shaffer is not particularly fond of the woman, she particularly objects to being compelled to live in the company from which she has been so eager to get away.

She says that if Mrs. Nussler were absent known to the District Attorney would always be about her, and she cannot endure his presence any longer, and never wants to see him again. Mrs. Nussler's father, however, wishes to have the appointment given to Adj. M. E. Truelove, who resides on Griffin avenue, and the matter yesterday was continued until this forenoon, when it is expected that Mrs. Truelove will present a petition upon Edith's nomination. While Mrs. Truelove, who is interested in the Salvation Army work, may not be able to keep the girl herself, she is willing to guarantee that the little unfortunate shall never lack a good home.

ANENT LIQUOR LICENSES.  
District Attorney's Office Enlightens  
Board of Supervisors.

The Supervisors for some time past have been in doubt over the legal propriety of issuing certain liquor licenses. They are now in receipt of a reply from the District Attorney's office, as follows:

"Gentlemen: In regard to the petition of Guenther & Murest concerning charge for restaurant license, where the petitioners also pay a regular retail liquor license, a beg leave me to say that in our opinion, under the county license ordinance, where a retail liquor dealer pays a license of \$13 per month, and a restaurant license of \$10 per month, the dealer keeps open on Sunday and sells liquor as a restaurant-keeper; a view to which the county license keeps open on Sunday and sells liquor on Sunday as a restaurant-keeper, he is conducting a restaurant, within the meaning of the ordinance, and therefore, to the payment of a restaurant dealer's liquor license. This license is collected by the Tax Collector, we understand, and in several recent suits brought by the District Attorney against the holders of licenses from retail liquor dealers in Los Angeles city, both restaurant and saloon licenses were collected."

A DRY GOODS SUIT.  
Los Angeles and Santa Barbara  
Meghanis in Litigation.

Herbert A. Rogers was suing Crandall, Aylsworth & Haskell yesterday in Judge Allen's court for a judgment of \$650.48. The suit involves two stocks of merchandise. In August, 1897, defendants owned a stock of men's and boys' clothing in Los Angeles, and plaintiff owned a stock of dry goods and furnishing goods in Santa Barbara. The parties agreed to exchange, the party receiving the more valuable stock to pay the difference in cash.

Pursuant to an alleged agreement, G. W. Aylsworth went to Santa Barbara and secured a stock of goods, which aggregated \$324. In August, 1897, plaintiff came to Los Angeles, and with the aid of defendant's counsel, secured the latter's stock, but set down the figures in but one invoice book. After the work was finished, it is alleged defendants intended to take the stock, but refused to extend the figures in the invoice book, and add up its total and send it along with the stock of goods to Santa Barbara.

Rogers went home, and on August 23, received the stock and an invoice that read \$4003.23. This invoice, he now alleges, had been tampered with after he received it, and the invoice was false and fraudulent, and had been sent with intent to cheat and defraud plaintiff out of several hundred dollars. He then took another invoice as soon as the stock arrived in Santa Barbara, and found that it amounted, as he sets forth, to \$1373.62, instead of \$4003.23, which he paid. He was willing to accept the goods.

On August 24 he purchased of defendants another bill of goods, amounting to \$274.10, and in return he gave them his transaction, he says, has nothing to do with the other, and he asks judgment for \$650.48.

Crandall, Aylsworth & Haskell, however, deny that any fraud whatever was practiced, or that there was ever any contract; and, as a further defense, allege that plaintiff, who is now a partner in the firm, had representation of a certain shortage in the goods exchanged, they gave him merchandise amounting to \$372.10, and he paid them in settlement of all rights and claims.

The suit was originally begun in Santa Barbara, and afterward transferred to this county. After Rogers himself was sworn and had testified in part yesterday, trial of the cause was continued until this morning.

CORPORATION WITH A SOUL.  
Lighting Company, Managed by a  
Woman, Sues the City.

The suit in which the Board of Supervisors is made defendant by the Long Beach and San Pedro Electrical Company was on trial before Judge Fitzgerald yesterday, and was continued until next Friday afternoon, for argument. Mrs. Iva E. Tutt, a modest looking woman, who is the secretary and general manager of the company, took the stand and testified, in a calm, remarkably businesslike way, that she had been the owner of the company since its incorporation, and that she was doing, and the electrical company might search a long time without finding another so capable of affairs, even though he should wear tailor's clothes instead of a tailor-made gown of light-brown hair.

On May 1, 1898, at the rate of \$42 a month. On October 1, 1898, Mrs. Tutt paid of the original interest in this lighting contract to Charles C. Glass, and in May, 1899, they sold everything to the Long Beach and San Pedro Electrical Company. The monthly payments of \$42 on the lighting contract with the city were all paid up to and including August, 1899.

On January 1, the plaintiff signed another contract with the municipality to light the wharf for five months, beginning June 1, for \$40 a month, and on this contract \$30 was collected. But at this point the board of municipality ran against a snag. In July Long Beach disincorporated, and by this little step of retrogression plaintiff claims to have been damaged \$122 on its contracts with the town.

Claims were presented to the Supervisors, therefore, for remuneration out of the special fund in the county treasury for payment of obligations against the old town of Long Beach, disincorporated, but the board refused to allow the required warrant to be drawn, and instead in the special fund in the county treasury to recover damages suffered by reason of the disincorporation, and to provide some way of collecting them.

December 1897, Long Beach re-incorporated, and now both the Long Beach School District and the city of Long Beach, of the sixth class now, assert an interest in the special fund in the county treasury gathered from the old incorporation, and plaintiff asks that its interest in this fund be declared prior to all other claims or that a special tax be levied upon the district comprising the old town of Long Beach to pay \$122, and costs of this action. There is dispute as to the facts in the case; its termination hangs merely on dry points of law.

SUPREME COURT.  
October Term Closes—Chief Justice  
Will Hear a Habeas Corpus.

The Supreme Court held its closing session in Los Angeles for the October term yesterday afternoon. Adjournment was taken to San Francisco, whither most of the justices proceeded last evening. Chief Justice Beatty, however, remains to hear arguments on a writ of habeas corpus, set for this morning at 10 o'clock.

The petition for the writ is presented by "Habeas Corpus" Ladd, in behalf of Catarina Urias, who, it is alleged, is unlawfully detained by Sheriff Hamel. Urias is in the County Jail serving a ninety-day sentence on a plea of guilty, to a charge of simple assault, in the Justice's Court of San Antonio Township.

Late in July Urias attacked a man out on East Jefferson street with a pitchfork, and was arrested and taken before Justice Williams on a complaint charging him with assault with a deadly weapon, which is a felonious offense, and could be tried inside or outside of the city limits of Los Angeles. But, however, the case was compromised, Urias being allowed to plead guilty to a charge of simple assault. It then became important to know what the offense was committed in the city or in San Antonio Township. As a matter of fact, it is said, the act was committed in the city, and the jurisdiction is raised to the justice of the peace without jurisdiction, notwithstanding Urias's plea of guilty.

The matter was in the Superior Court some weeks ago on habeas corpus proceedings before Judge Fitzgerald, but he recommended the prisoner, holding that Ladd's contention was one for appeal and not for a writ.

One of the last matters to go before the court yesterday was the arguments in the contested Silvan estate. Silvan was the pioneer boot-black of Los Angeles, and he died, leaving a considerable property. Two wills were found after his death, one leaving the property to the Catholic church, the other to his adopted son, Esteban Oujido. The latter will is alleged to be a forgery.

AGENCY MEN LOSE. In the suit for brokerage commission that sprang out of the trade of the Everett (Wash.) Independent for the Los Angeles Capital, in which the firm of A. A. Irish & Co. was suing W. E. Rothery and others for \$400, alleged to be due for services rendered in the negotiation of editors, Judge Fitzgerald yesterday rendered judgment for the defendants. The Capital wins.

GUARDIAN MATTER. George M. Henson seeks to be appointed guardian of his fifteen-year-old daughter, Lulu May, whose estate consists of a one-eighth interest in a life insurance policy of \$2500.

FOR FORECLOSURE. A. W. Beery is suing George C. Larkin and others to foreclose a \$1200 mortgage. Alexander C. Stevenson began suit yesterday against Frank M. Kelsey, as administrator of the estate of John M. McKahan and Claude S. McKahan, and Eva McKahan and Lewis D. McKahan, to recover \$1500, alleged to be due on a note executed August 15, 1895, at 6 per cent., and secured by Gardena property.

NEW NAME WANTED. The Equitable Building and Loan Association asks permission to change its name to the Equitable Loan Society.

THEIR FURNITURE. John J. Fay, Jr., as trustee, was suing Mrs. B. Northrup and her husband in the Township Court yesterday for \$204, due for furniture bought some time ago of W. S. Allen. The furniture was purchased by Northrup himself, who was given six months in which to pay for it, and he immediately went home and gave it to his wife. In making one of the payments he asked that the bill be made to his wife. Some misunderstanding arose, and a suit was begun. The bill was originally \$294.72, on which \$90 had been paid. Judgment was rendered against the husband, the court holding that the wife, who did not make the contract of purchase, could not be liable.

INCORPORATION. The American Trading and Transportation Company, whose object is "the purchase, transportation and sale of merchandise in the open markets of the world," filed articles of incorporation yesterday, with principal place of business in Los Angeles. The company's capital stock is \$1,000,000, divided into 10,000 shares, of which \$2500 has actually been subscribed. The directors are Edward J. McNaught, M.D.; Edwin M. Latham, Alonzo de A. Whiting, C. C. Loomis and James F. Kenaley.

NO MORE BRIEFS. Judge Fitzgerald yesterday formally announced in court that he will make it a rule in his department hereafter that no cases shall be submitted on briefs, unless absolutely necessary. "It is my intention," said the court, "to decide, so far as possible, every case as it comes up in my department. Then I shall not get behind with the work."

AGAINST PUBLIC ADMINISTRATION. The jury in the trial of Public Administrator Kellogg against Mrs. Alice Seekatz, brought in a verdict in favor of defendant yesterday in Judge

## PASADENA.

### DOCTORS AND CITIZENS BOOMING HOSPITAL ENTERPRISE.

Meeting of Pasadena Medical Association—A New "Blind Pig" That Suddenly Opened its Eyes. Woodmen Receive Visitors from Los Angeles—Banquet.

PASADENA, Oct. 13.—[Regular Correspondence.] The Pasadena Medical Association met this evening in the Kinney & Kendall building, with over twenty members present. Three new members were elected. Many interesting clinical cases were reported, including one of abnormally low temperature in Pasadena, where the temperature of the patient went down to 85. A paper on distal was read and discussed. A lively interest was manifested in the work of founding the new hospital, and the Doctor's Committee reported that the citizens were pushing it in good earnest. Nearly every doctor in the city has signed up for one membership or more in the Hospital Association. The physicians will have nothing to do with the management, though an advisory board of M.D.s probably will be appointed. The location of the new hospital when built is a matter of some debate. One site suggested was the place opposite Rev. A. M. Merwin's, just outside the city limits. All the doctors are glad that arrangements are to be made for the temporary use of the old hospital quarters. The association adjourned to meet with Dr. McBride next Tuesday evening, when they will discuss sewers, water supply and parks.

The hospital board met today and adjourned till Monday, without transacting any business. A motion for the hospital has not yet been engaged.

THE "PIG" GOT AWAY.

While the Anti-Saloon League was very much occupied in training its guns on the suburbs, a sly attempt was made to start another "blind pig" in the heart of the city. Indeed, the start was really made, and a good patronage had sprung up among the initiated, when the "blind pig" was caught. The proprietor was so very cautious, and induced his customers to take so many pains, that he imagined he could carry on his little game undetected; but he soon found the Marshal was shadowing the place and had a list of his patrons in his famous memorandum book. The police were right on the point of raiding the joint, when the game was light and fled, abandoning the business that had been built up. One day later and there would have been a case for the court.

IN THE LODGEROOMS.

The Woodmen of the World had a big crowd out and a number of visitors from Los Angeles this evening. Two candidates were initiated, one of them from Sacramento. General Organizer Temple and Special Organizers Beck and Borden were there to witness the work, which was done under a special dispensation in full amplified form.

The Daughters of Amaranth had music, recitations, and a guessing contest this evening.

The cribbage team of the Pasadena Sons of St. George has now won two successive victories at the home of Alexandra Lodge of Los Angeles.

A meeting of representatives of the various Workmen of this county was held here last night to make plans for the picnic at East Side Park, October 27. It was reported that all the railroads had agreed to give reduced rates and special accommodations. All the lodges south of Tehachapi will receive written invitations. The picnic will close with a ball.

PASADENA BREVITIES.

Four and three-eighths inches of rain fell on Mount Wilson in the last storm, and a part of the trail was washed away. No other rain has passed. The precipitation in Pasadena was 2 inches. City Engineer Clapp found between 5000 and 6000 inches of water running down the Arroyo Seco today.

The Woman's Improvement Association of Southern Pasadena took up the question of manual training in the local public schools, and it was their conclusion that "under existing conditions, such work would be better outside of the common schools, as the children are already crowded with their studies."

Isaac Heles, one of the pioneers of Pasadena, died last evening in La Canada, on the fruit ranch of his sons, A. A. G. and F. S. Heles, the Pasadena merchants, and lived in this county sixteen years, most of the time in Pasadena.

It is not yet certain whether Gen. Wentworth will come to Pasadena this winter, as he has undertaken the management of a hotel in New Jersey. Mr. Painter, the Pasadena painter, is in correspondence with him.

City Marshal Lacey has been busy today summoning a venire of thirty-six men for the trial of the "blind pig" in Pasadena.

Word has been received from Vancouver, B. C., that S. Roberts of this city was badly injured there by falling from a scaffold.

The Nineteenth Century Club will meet Wednesday forenoon with Miss Thibault on South Los Angeles avenue.

The Times Home Study Circle course on Shakespeare will begin in the Magazine tomorrow.

E. F. Brown and wife celebrated the twenty-eighth anniversary of their wedding last evening.

It was the Friendship Baptist Church (colored) that expelled Miss Holmes for dancing.

J. R. Greer and his son, Everett, returned today from an extended visit to the East.

Secretary Heap banquished the Throop Debating Club this evening.

The Carlton Hotel is to have a new entrance and other improvements.

J. H. Holmes and W. H. Wright have gone to the city of Mexico.

J. J. Allen and family of this city have removed to Riverside.

Stop that cough! McCament's home-made candy only 10 cents a pound today.

New line of matings at old-time prices at Penner's, 177-181 E. Colorado. Hammam baths at Howland Gymnasium.

## ORANGE COUNTY.

Irrigation Company's New Officers. Orange Growers Organized.

SANTA ANA, Oct. 12.—[Regular Correspondence.] The new board of directors of the Santa Ana Valley Irrigation Company has organized by electing S. Amner president and B. Goodrich secretary. J. R. Paine was re-elected superintendent at a salary of \$55 per month, and the wages of the janitors were raised \$5 per month each over last year. Janitors were appointed and their wages fixed as follows for the ensuing year: Albert Phillips, \$65; Fred Struck, \$60; Jefferson Gandy, \$60; Taylor Bush, \$55; R. R. Peralta, \$55.

## SANTA MONICA.

### A LIVELY HALF-HOUR AT THE SOUTHERN PACIFIC WHARF.

Southwest Gale Disturbs Shipping and Proves to Be Too Much for Uncle Collis's Tug Collis—Some Dangerous Experiences.

SANTA MONICA, Oct. 13.—[Regular Correspondence.] The severe southwest gale which blew this morning was particularly unkind to the Southern Pacific wharf at Port Los Angeles, where there was an uncommonly large lot of shipping gathered. The gale, which had blown moderately in the night, increased in violence during the morning hours, and by 10 o'clock had blown the choppy ocean into a rather heavy sea. Southwest is the most sensitive direction of exposure at Port Los Angeles, and that was the point of compass from which the storm came. The collier Mineloa, Capt. David, with a cargo from British Columbia, had arrived in the night and was lying at the wharf. The Alcatraz, a tug, was also at the wharf. She was made fast by plenty of lines and behaved very well. The British ship Collis, Capt. Macdonald, also lay in the lee of the coal bunkers, and made no great disturbance. The small lumber steamer Alcatraz, Capt. Bowen, was moored on the south side of the wharf. The Alcatraz discharged a few lines, but the heaving of the steamer made the manipulation of the slings too difficult and the attempt was given up. The Alcatraz and the South Coast both steamed to moorings in the lee of the wharf. A small quantity of lumber was landed from the deck of the South Coast.

Meantime Capt. Bowen of the Arctic Stream was away, having gone to Los Angeles early in the morning to search for some missing sailors. The force of the storm increased and the Arctic Stream was away, having gone to Los Angeles early in the morning to search for some missing sailors.

San Bernardino County. Agreement Reached Whereby Darkness Will Be Dispelled from the Streets at Night—Quick Conviction and Sentence.

SAN BERNARDINO, Oct. 13.—[Regular Correspondence.] Another meeting of citizens and members of the Board of City Trustees with representatives of the San Bernardino Electric Company, was held last evening at C. F. Lape's residence, when an agreement was practically reached to begin lighting the city at once.

The basis of the agreement is to turn on the street lamps, no contract to be made, and the city to pay at the rate of \$5.50 per lamp per month, leaving the question of the balance of back bills, amounting to over \$400, claimed by the company, to be settled in the courts. The City Trustees met in special session this evening to adopt a resolution in accordance with the verbal agreement, and if there is no hitch in the proceedings, the lights will probably be turned on tomorrow night. Last night's meeting was attended by Trustees Hanford, Stewart, Riley, Garner and West; City Attorney Haskell, President W. S. Hooper of the electric company, and James Fleming, A. M. Ham, H. M. Barton and C. F. Lape, the latter four being members of a citizens' committee recently appointed to get at a solution of the difficulty that has lately existed between the City Trustees and the electric company.

QUICKLY CONVICTED.

Frank Noe was brought up for trial yesterday in Department Two of the Superior Court, on the charge of selling liquor to an Indian, and in less than three hours the jury was sent to the courtroom to return a verdict of guilty. The prisoner waived time, and Judge Campbell at once imposed sentence, four months in the county jail.

If you put off studying The Times Home Study Circle courses you will forget it entirely. Begin at the beginning. The courses are in the Magazine, and continue every day except Saturday, for the next three months.

## POMONA.

### "White Angel" Plan of Cleaning the Streets Being Tried.

POMONA, Oct. 13.—[Regular Correspondence.] The street cleaning contract of W. N. Eames, with the city, has expired, and the City Trustees are now trying the "white angel" hand-sweeping system, on the five hand blocks of Second street. The way from the city hall to the machine sweeping as usual, but if after a week's trial the hand-sweeping is deemed more thorough and as economical, the method will be adopted.

## POMONA BREVITIES.

The funeral of the late Richard Lidstone was held here yesterday afternoon, at the residence of J. W. Hood and A. T. Caerbert have each purchased twenty acres of alfalfa land southeast of Pomona.

The Partin home place on Ellen street has been sold to D. A. Hawk, who recently left for the Philippines.

Brown Andrus, son of Postmaster Andrus, is now the rural mail deliverer.

A. Sanborn has traded Boyle Heights, Los Angeles, property for John J. Stewart's place on West Libbie street here.

Are you interested in home study? Request the editor of The Times Home Study Circle to send you a booklet telling all about it.

## RIVERSIDE COUNTY.

### Plans for Entertainment of Mining Engineers Abandoned.

RIVERSIDE, Oct. 13.—[Regular Correspondence.] Plans for entertainment of the members of the American Institute of Mining Engineers, who have been touring the Coast, arrived at San Diego Thursday afternoon from Los Angeles. They were met at the train by Mayor Capps, a committee of prominent citizens, members of the Chamber of Commerce and mining men. The visitors were driven about the city and places of interest viewed. Later, the entire party was driven to Hotel del Coronado, where they dined and spent the night. The formality of a regular programme was dispensed with, for the evening, as many of the visitors were sightseeing and did not return to the hotel until late. The visitors left this morning at 8 o'clock for Redlands, Riverside and Los Angeles.

## JAMAICA TREATY.

George Frost, chairman of the Citrus Growers' Tariff Committee, has issued a call to the orange-growers of Riverside to meet at the city court room at 2 o'clock next Tuesday afternoon to discuss the Jamaica treaty.

Don't fail to take advantage of the new courses of study offered by The Times Home Study Circle. The first lesson will appear in the Magazine tomorrow.

Venezuela Armistice Extended. CARACAS (Venezuela), Oct. 13.—The armistice between the government troops and the insurgents has been extended until Saturday. It is also extended on reliable authority that President Andrade will meet the insurgent general, Castro.

## SANTA MONICA.

### A LIVELY HALF-HOUR AT THE SOUTHERN PACIFIC WHARF.

Southwest Gale Disturbs Shipping and Proves to Be Too Much for Uncle Collis's Tug Collis—Some Dangerous Experiences.

SANTA MONICA, Oct. 13.—[Regular Correspondence.] The severe southwest gale which blew this morning was particularly unkind to the Southern Pacific wharf at Port Los Angeles, where there was an uncommonly large lot of shipping gathered. The gale, which had blown moderately in the night, increased in violence during the morning hours, and by 10 o'clock had blown the choppy ocean into a rather heavy sea. Southwest is the most sensitive direction of exposure at Port Los Angeles, and that was the point of compass from which the storm came. The collier Mineloa, Capt. David, with a cargo from British Columbia, had arrived in the night and was lying at the wharf. The Alcatraz, a tug, was also at the wharf. She was made fast by plenty of lines and behaved very well. The British ship Collis, Capt. Macdonald, also lay in the lee of the coal bunkers, and made no great disturbance. The small lumber steamer Alcatraz, Capt. Bowen, was moored on the south side of the wharf. The Alcatraz discharged a few lines, but the heaving of the steamer made the manipulation of the slings too difficult and the attempt was given up. The Alcatraz and the South Coast both steamed to moorings in the lee of the wharf. A small quantity of lumber was landed from the deck of the South Coast.

Meantime Capt. Bowen of the Arctic Stream was away, having gone to Los Angeles early in the morning to search for some missing sailors. The force of the storm increased and the Arctic Stream was away, having gone to Los Angeles early in the morning to search for some missing sailors.

San Bernardino County. Agreement Reached Whereby Darkness Will Be Dispelled from the Streets at Night—Quick Conviction and Sentence.

SAN BERNARDINO, Oct. 13.—[Regular Correspondence.] Another meeting of citizens and members of the Board of City Trustees with representatives of the San Bernardino Electric Company, was held last evening at C. F. Lape's residence, when an agreement was practically reached to begin lighting the city at once.

The basis of the agreement is to turn on the street lamps, no contract to be made, and the city to pay at the rate of \$5.50 per lamp per month, leaving the question of the balance of back bills, amounting to over \$400, claimed by the company, to be settled in the courts. The City Trustees met in special session this evening to adopt a resolution in accordance with the verbal agreement, and if there is no hitch in the proceedings, the lights will probably be turned on tomorrow night. Last night's meeting was attended by Trustees Hanford, Stewart, Riley, Garner and West; City Attorney Haskell, President W. S. Hooper of the electric company, and James Fleming, A. M. Ham, H. M. Barton and C. F. Lape, the latter four being members of a citizens' committee recently appointed to get at a solution of the difficulty that has lately existed between the City Trustees and the electric company.

QUICKLY CONVICTED.

Frank Noe was brought up for trial yesterday in Department Two of the Superior Court, on the charge of selling liquor to an Indian, and in less than three hours the jury was sent to the courtroom to return a verdict of guilty. The prisoner waived time, and Judge Campbell at once imposed sentence, four months in the county jail.

If you put off studying The Times Home Study Circle courses you will forget it entirely. Begin at the beginning. The courses are in the Magazine, and continue every day except Saturday, for the next three months.

## POMONA.

### "White Angel" Plan of Cleaning the Streets Being Tried.

POMONA, Oct. 13.—[Regular Correspondence.] The street cleaning contract of W. N. Eames, with the city, has expired, and the City Trustees are now trying the "white angel" hand-sweeping system, on the five hand blocks of Second street. The way from the city hall to the machine sweeping as usual, but if after a week's trial the hand-sweeping is deemed more thorough and as economical, the method will be adopted.

## POMONA BREVITIES.

The funeral of the late Richard Lidstone was held here yesterday afternoon, at the residence of J. W. Hood and A. T. Caerbert have each purchased twenty acres of alfalfa land southeast of Pomona.

The Partin home place on Ellen street has been sold to D. A. Hawk, who recently left for the Philippines.

Brown Andrus, son of Postmaster Andrus, is now the rural mail deliverer.

A. Sanborn has traded Boyle Heights, Los Angeles, property for John J. Stewart's place on West Libbie street here.

## RIVERSIDE COUNTY.

### Plans for Entertainment of Mining Engineers Abandoned.

RIVERSIDE, Oct. 13.—[Regular Correspondence.] Plans for entertainment of the members of the American Institute of Mining Engineers, who have been touring the Coast, arrived at San Diego Thursday afternoon from Los Angeles. They were met at the train by Mayor Capps, a committee of prominent citizens, members of the Chamber of Commerce and mining men. The visitors were driven about the city and places of interest viewed. Later, the entire party was driven to Hotel del Coronado, where they dined and spent the night. The formality of a regular programme was dispensed with, for the evening, as many of the visitors were sightseeing and did not return to the hotel until late. The visitors left this morning at 8 o'clock for Redlands, Riverside and Los Angeles.

## JAMAICA TREATY.

George Frost, chairman of the Citrus Growers' Tariff Committee, has issued a call to the orange-growers of Riverside to meet at the city court room at 2 o'clock next Tuesday afternoon to discuss the Jamaica treaty.

Don't fail to take advantage of the new courses of study offered by The Times Home Study Circle. The first lesson will appear in the Magazine tomorrow.

Venezuela Armistice Extended. CARACAS (Venezuela), Oct. 13.—The armistice between the government troops and the insurgents has been extended until Saturday. It is also extended on reliable authority that President Andrade will meet the insurgent general, Castro.

## CUIGNET'S RIDICULE.

### CHARGES AGAINST COL. SCHNEIDER CAUSE BLOODSHED.

Former Military Attaché of Austro-Hungary Embassy at Paris Mysteriously Wounded as a Result of Evidence Before the Dreyfus Court-martial.

## CORONADO BEACH.

### HOTEL DEL CORONADO, Oct. 13.—[Regular Correspondence.]

The evening session of the Home Study Circle course was held at the Hotel del Coronado Thursday afternoon. They spoke enthusiastically of the receptions they had been tendered along the Coast and praised the hospitality of Los Angeles. The Chamber of Commerce secretary, C. Coronado gave the San Diego Chamber of Commerce the privilege of using the ballroom at the hotel for the reception of the visitors. The reception was not as brilliant a success as the prominence and distinction of the visitors warranted, owing to the fact that the reception committee practically failed to receive. Neither the Mayor of San Diego, the president, vice-president, nor even the secretary of the Chamber of Commerce attended the evening festivities. President Martin of the Chamber of Commerce was out of the city.

Dr. and Mrs. C. G. Strong of San Francisco, who have been at the hotel the past few weeks, left on the steamer Alcatraz for Los Angeles. E. B. Burns, a prominent resident of Santa Ana, and Mrs. Burns are guests at the hotel.

The autumn-winter term of the Times Home Study Circle course will begin tomorrow. If you have not yet received a booklet announcing the new courses of study, write for one immediately.

## SANTA BARBARA COUNTY.

### THAT "GAP" RIGHT-OF-WAY AFFAIR CLEARED UP AT LAST.

Settlements Reached With All the Parties Who Stood Afoot and an Effort to Be Made to Hurry the Work—Continued.

SANTA BARBARA, Oct. 13.—[Regular Correspondence.] At last the right-of-way matter concerning the "gap" has been all cleared up. At the time of the settlement with the Hollister estate, some weeks ago, there were only two owners on the line with whom settlements had not then been reached. These were Barclay Hazard and Bruno Orella.

The Hazard matter is now before the courts. The time of publication of notices of condemnation proceedings was expired on the 18th inst. A motion will at once be made by the company asking possession. As soon as this is had work will be commenced.

The Orella matter was closed this morning. Orella has been considering the company's terms for five months. Both sides have made reasonable concessions. The transfer of about five miles of the right-of-way is entirely satisfactory to both parties.

The consideration named is \$11. The company is to be allowed heavy easements in the Coronado Cañon and gives crossings. A new county road with fences, bridges and easy grades is to be built through the land by the company and be turned over to the county as soon as finished.

The stoneasons, under a local contractor named Davis, have just taken possession and work will be rushed at once. Graders' tools will arrive as soon as possible and within a very few days work on the point will be under full swing. An effort will be made to hurry the work and to keep it up so that this part of the line will be ready for track almost as soon as the rest.

## MUSIC FOR THE CHILDREN.

A wealthy citizen of Montecito, who modestly does not wish his name made public, gave a concert at the Unitarian Church this afternoon for 300 pupils of the High School and of the seventh and eighth grades. It is his intention to elevate the children through good music. He therefore pays for a concert occasionally. Gerard Cartwright rendered several piano organ numbers and Miss Marian E. B. Titt gave several contralto solos.

A university education at home. Send for a booklet announcing the courses to appear in The Times Home Study Circle.

## KENNEY CASE CLOSED.

### Senator Will Not Be Prosecuted on Conspiracy Charge.

WILMINGTON (Del.), Oct. 13.—Judge Bradford, in the United States District Court today, granted to Dist. Atty. William N. Bryne permission to enter a nolle prosequi in the case of Senator Richard E. Kenney, indicted for conspiring to aid and abet William N. Boggs, the paying teller of the First National Bank of Denver, who robbed that institution of \$107,000.

## A Happy Mother's Gratitude.

[LETTER TO MRS. PINKHAM, No. 55.] "DEAR MRS. PINKHAM—I have many, many thanks to give you for what your Vegetable Compound has done for me. After first confinement I was sick for nine years with prolapsus of the womb, had pain in left side, in small of back, a great deal of headache, palpitation of heart and leucorrhoea. I felt so weak and tired that I could not do my work. I became pregnant again and took your Compound all through, and now have a sweet baby girl. I never before had such an easy time during labor, and I feel it was due to Lydia E. Pinkham's Vegetable Compound. I am now able to do my work and feel better than I have for years. I cannot thank you enough."—Mrs. Ed. E. LINGER, DENVER, TEX.

## Wonderfully Strengthened.

"I have been taking Lydia E. Pinkham's Vegetable Compound, Blood Purifier and Liver Pills and feel wonderfully strengthened. Before using your remedies I was in a terrible state, felt like fainting every little while. I thought I must surely die. But now, thanks to your remedies, those feelings are all gone."—Mrs. EMILIE SCHNEIDER, 1244 HELEN AVE., DETROIT, MICH.

## City Briefs.

To regular readers of The Times is offered a beautiful and valuable book containing a collection of one hundred of the best cartoons selected from those which have appeared in The Times during the last two years. The conditions upon which the book is offered will be given free to all subscribers pay for the Daily and Sunday Times one year in advance. The book is handily bound and printed on specially-prepared heavy paper, and will be a valuable and ornamental addition to any family library.

The Good Samaritan. Remember the needy. Save your cast-off clothing, beds, bedding or stoves for poor families of the city. A request is also made for shoes and clothing for poor children. Drop a card to Fred Vredestad, at the "Good Samaritan" (formerly Capt. Vredestad's place), No. 135 East Seventh street, and anything you have to donate will be called for.

The Times business office is open all night, and letters, death notices, etc., will be received up to 1:30 a.m. Small display announcements may be sent in up to that hour, but larger ones cannot be attractively set if brought in later than 8:30 p.m. Telephone Main.

First Methodist Episcopal Church, corner Sixth and Broadway, Illinois Hall, Rev. R. L. Bruce of Pasadena will preach Sunday, 11 a.m. Rev. E. A. Healy will preach at 7:30 evening. All are invited.

Rational culture classes in Masonic Temple, Tuesday and Friday evenings. Visitors welcome. Ladies' class begins October 16 at 9 a.m.; twenty-seven lessons, \$3. Attend opening.

Are you interested in the study of Shakespeare? If so, you should not fail to read The Times Home Study Circle course, which will begin tomorrow.

Call and see the new effects in turbans and street hats at the very reasonable. Miss A. Clarke, Maison Nouvelle, 222 W. Third street.

Physical culture, elocution and English. Kramer's school of elocution, classes open October 16 and 17. Angela L. Anderson, Director.

The Western Union Telegraph have opened a branch office at the "new stand" in the Van Nuys Broadway Hotel on Broadway.

The Times job office has removed temporarily, while new building is being erected, to basement of The Times Building.

All kinds plain machine composition at 30 cents per thousand ems, standard measure, at The Times job office.

Osteopathy, Dr. Hayden, corner Hill and Fifth streets. Tel. James 28.

Rev. C. C. Pierce will speak at N.W.C.A., 2:30 p.m., Sunday.

Furs remodeled, D. Bonoff, 247 S. Bly.

The Los Angeles County Teachers' Association will meet in the High School at 10 o'clock this morning.

George Young went to the Receiving Hospital last night with a smashed finger, which he sustained from a bar of iron falling upon it.

The Army and Navy Republican League will hold an important business meeting at old Elks' Hall, No. 2224 South Main street this evening.

Notice of appeal was filed in the Austin's case yesterday, in behalf of Alexander Matuzewski, the Polish junk dealer who was sentenced to six months' imprisonment lately, for petty larceny.

In Justice Morgan's court yesterday Mrs. B. Prizent filed suit against Mrs. A. M. Shinkwin for \$140, alleged to be due for services as nurse and cook for the defendant, and \$10 for the use of an electric battery, together with costs of suit, etc.

The students of the commercial department of the High School elected the following officers yesterday: President, J. M. Danziger; vice-president, Orrie Russell; secretary, Mae Dickinson; treasurer, Barton Richardson; critics, E. L. Hedderly, C. W. Grayson, Miss McGary and Mr. ...

The stagnation in Police Court business continues. Justice Austin had only three drunks and one vagrant to deal with yesterday. There were no trials in Justice Morgan's court.

Dr. J. F. Galloway is mourning the loss of his bicycle, which was stolen yesterday from the basement of the Frost building.

An inquest was held at San Pedro yesterday on the remains of Martin Larson, who was found dead in bed. The inquest developed the fact that Larson had been on a spree for the past three weeks, and the verdict was that death was due to excessive alcoholism.

He owned two lots in San Pedro. As far as is known he left no relatives, and the Public Administrator will take charge of his property.

Christian Herman Volgards, a chronic beggar, was before Justice Austin once again yesterday to answer for vagrancy. The defendant is a highly-educated German, who is too old and infirm to support himself. He has run away from the County Farm so often that he has been denied further admission there. The question what is best to do with him is a puzzling one. Justice Austin took it under advisement till 10 o'clock this morning.

**Friday Morning Club.**

The heavy rainstorm yesterday morning prevented a large number of members of the Friday Morning Club from attending the regular weekly meeting.

On account of the small attendance the paper prepared by Mrs. A. S. Wing on "Some Sisters of Great Men" will be read at another meeting of the club in the near future.

The Book Committee will be in charge of the meeting next Friday morning. There will be comments on the proper kind of reading matter for summer, and Mrs. Mary L. Jones of the public library is on the programme to read a paper on "George Borrow."

**A Horse Electrified.**

William Dierk, a Times route-owner, encountered a live electric wire on Twenty-fifth street near Main yesterday morning. His horse, upon coming in contact with the wire, was knocked senseless and remained so for half an hour. The animal, upon reviving, was gotten home, but may die from the shock. It was a wire of the Edison company which was exposed.

**Marriage Licenses.**

The following marriage license was issued yesterday from the office of the County Clerk:

Wesley Daniel Gibbs, aged 24, a native of New York and a resident of Los Angeles, and Mae Mellen, aged 20, a native of California and a resident of Acton.

**DEATH RECORD.**

RICH—At Phoenix, Ariz., October 11, 1890, Arthur B. Rich, a native of Richville, N. Y., aged 41 years 1 month 1 day.

Funeral services will be held at the parlors of Peck & Chase Co., South Hill street at 2 o'clock p.m., Saturday, October 14. Interment private. Friends and acquaintances are invited.

**ROYAL ARCANUM.**

Attention, members of Los Angeles and sister councils. You are requested to meet at Peck & Chase's, Hill street, Saturday, October 14, 1890, at 2 p.m., to attend the funeral of our late brother, A. B. Rich.

D. W. MALOON, Secretary.

**SUCH & DEERING, FUNERAL PARLORS**

**ANNUAL MEETING ENDED**

**MISSIONARY SOCIETY'S OFFICERS**

**ELECTED YESTERDAY.**

**Most Largely-attended Session in the Organization's History—The Delegates to Other Meetings Selected—Some Changes.**

Yesterday was the third and closing day of the eleventh annual meeting of the Pacific Branch of the Woman's Foreign Missionary Society. This session has been the most largely attended in the society's history. Delegates of national reputation have been in attendance, and the deliberations have been unusually fraught with enthusiasm.

The next annual meeting will take place at the Sixth-street Methodist Episcopal Church, Sacramento.

The devotional exercises which opened the morning session yesterday were conducted by Mrs. E. C. Seymour of Los Angeles. The first vice-president, Mrs. O. F. Brown of Los Angeles, called the business meeting to order.

The Committee on Publications reported that \$95.30 had been expended during the last year for the tracts and pamphlets sent out by the branch. The Committee on Revision of the By-laws reported through Mrs. Mary F. Woodcock of Monrovia. The changes proposed were mostly with reference to routine matters, and were all adopted.

The most important amendment was one changing the time of the annual meeting to the Wednesday following the first Sunday in October. Mrs. H. E. M. Patten, Los Angeles, was appointed to act as fraternal delegate to the annual convention of the California Women's Christian Temperance Union at the meeting to be held in San Diego next April. Mrs. W. H. Pepper of San Diego was selected as alternate.

The officers for the coming year were elected as follows: President, Mrs. Clara V. Kummer, San Jose; corresponding secretary, Mrs. Charlotte O'Neal, Pasadena; assistant secretary, Mrs. A. Hansen, San Jose; recording secretary, Mrs. Lura C. Spencer, Manzanita; Mrs. J. M. Umsted of University as assistant; treasurer, Mrs. Z. L. Parmelee, Los Angeles; assistant treasurers, Mrs. F. J. Masters, Berkeley, and Mrs. Susie Pauling, Los Angeles; secretary for Arizona conference, Mrs. M. M. Parker, Tucson; California conference secretary, Mrs. C. C. Lombard, Oakland; secretary for Nevada conference, Mrs. Lucy M. Van Deventer, Reno; Southern California conference secretary, Mrs. H. E. M. Patten, Los Angeles; secretary for German conference, Mrs. C. F. Meyer, San Diego.

District secretaries were elected as follows: California conference—Oakland district, Mrs. C. B. Oliver, Berkeley; Sacramento district, Mrs. G. D. Kellogg, Newcastle; San Francisco district, Mrs. T. W. Nowlin, San Francisco; Santa Clara district, Mrs. J. W. Tool, Napa; Southern California conference—Los Angeles district, Mrs. J. W. Van Dine, San Diego; Fresno district, Mrs. W. Hart, North Ontario, and Mrs. Ellen Hall; Hueneme, Secretaries of young women's work—Mrs. E. C. Seymour, Los Angeles; Mrs. M. E. Herrold, San Jose; and Mrs. J. E. Stubbs, Reno.

Nev. Secretaries of juvenile work—Mrs. J. R. Umsted, University; Mrs. J. E. Stubbs, Reno, and Mrs. Lulu Hancock, Santa Rosa. Vice-presidents for Southern California conference—Mrs. O. F. Brown and A. K. Stalker, Los Angeles, and Mrs. J. S. Tomlinson, Santa Barbara; for California conference, Mrs. Marian Taylor, Oakland; Mrs. J. H. Glide, Sacramento; Mrs. F. D. Rovard, San Francisco, and Mrs. R. F. Taylor, Napa; for Arizona conference, Miss Belle Leonard and Mrs. Lucy Prescott, Phoenix; for Nevada conference, Mrs. L. R. Windsor, Quincy, and Mrs. Clara S. Ward, Reno.

At the afternoon session, Mrs. A. W. Adkinson of Long Beach read a paper on "Missionary Cleanings." Among the visiting and fraternal delegates introduced were Miss M. A. Ward and Miss Lathrop, of the Committee on the Union mission board. These ladies have just returned after twenty-eight years spent in mission work in India. After a brief address by the president, Mrs. Kummer, the business session was declared closed.

Miss Abbie L. Mills of Los Angeles conducted the closing devotional exercises.

The resolutions presented by the committee through Mrs. Wardwell Couch, thank the daily press for the attention given to the meeting; the railways for courtesies extended, and the ladies of the University Auxiliary for their entertainment.

Charlotte O'Neal of Pasadena, Mrs. C. V. Kummer of San Jose and Mrs. D. Cook of Piru, are the delegates elected to represent the Pacific branch at the meeting of the national executive board of the Women's Foreign Mission Society, to be held in Cleveland, O., on the 21st inst. These delegates are instructed to invite the national board to hold its next annual meeting in San Francisco.

The visiting delegates who remain in the city over today will enjoy a ride about town. This will end what all unite in saying has been the most successful meeting ever held by the society.

ANYVO Cold Cream beautifies and whitens; removes tan instead of covering it.
